NOTICE OF HEARING

A PUBLIC HEARING WILL BE HELD before the Arizona Power Plant and Transmission Line Siting Committee ("Committee") regarding the Application of Coolidge Power Corporation ("Applicant") for a Certificate of Environmental Compatibility authorizing the Coolidge Generating Station, a nominal 575 MW natural gas-fired, simple cycle electric generating facility ("Project"). The hearing will be held at the Coolidge Youth Center, 660 South Main Street, Coolidge, AZ 85228 and will begin on Tuesday, **September 30, 2008, at 9:00 a.m. and Wednesday, October 1, 2008, at 9:00 a.m.** The hearing will adjourn at approximately 5:00 p.m. on each day, unless the proceedings conclude earlier in the day. Additional hearings, if necessary, will be noticed on the Project website at <http://www.transcanada.com/coolidge> and on the Arizona Corporation Commission's ("ACC") website at: http://www.azcc.gov/AZ_Power_Plant/LineSiting-Calendar.asp (the address contains two underscores as follows AZ_Power_Plant).

The Committee may conduct a tour of the Project Site on Monday, September 29, 2008. The map and itinerary for the tour will be posted on the Project website. The tour will depart from the Coolidge Youth Center at approximately 1:30 p.m. Members of the public may follow the Committee on the tour in their own private vehicles. During the tour the Committee will not deliberate in any manner concerning the merits of the Application or the Project.

PUBLIC COMMENT WILL BE TAKEN AT THE BEGINNING OF EACH HEARING DAY. PUBLIC COMMENT WILL ALSO BE TAKEN IN A SPECIAL EVENING SESSION ON TUESDAY, SEPTEMBER 30, 2008 BEGINNING AT 7:00 P.M., AT THE COOLIDGE YOUTH CENTER, 660 SOUTH MAIN STREET, COOLIDGE, ARIZONA 85228. Any interested member of the public may appear and present public comment during any of the times allotted for public comment noted above. A person may be limited to a single opportunity, and/or to a limited amount of time, to present comments, at the discretion of the Chairman of the Committee.

Any person may make a limited appearance at the hearing by filing a written statement with the Director of Utilities, Arizona Corporation Commission, 1200 West Washington, Phoenix, Arizona 85007, not less than five days before the date set for hearing. A person making a limited appearance or presenting oral comment shall not be a party to this proceeding nor have the right to present testimony or cross-examine witnesses. Any organization or individual wishing to qualify to be a party to this proceeding must comply with Arizona Revised Statutes Section 40-360.05 and Rule 14-3-204 of the Arizona Administrative Code. Members of the public may obtain copies of these provisions by contacting the Commission's Consumer Services Section at 1-800-222-7000 or 602-542-4251.

The Project consists of the construction of a natural gas fired, simple-cycle power plant. The Project will include 12 General Electric (GE) LM6000 PC SPRINT NxGen combustion turbine generators. Each generator unit will be capable of operating independent of the other units, allowing the Project to efficiently produce an aggregate generating output ranging from approximately 25 MW up to approximately 575 MW, at prescribed ambient temperature and humidity conditions, as needed to respond to peak load. The Project includes a short 230kV transmission line running within the Project Site to connect the generators to a new switchyard within the same Project Site.

The proposed Project Site is an approximately 100-acre parcel of farmland located in Section 10, Township 6 South, Range 8 East, G&SRB&M, Pinal County, Arizona. The general location of the 100-acre Project Site is east of the Union Pacific Railroad right-of-way that runs parallel with and east of Highway 87, and south of the former Valero refinery facilities that lie south of Randolph Road, all within the southern portion of the corporate limits of the City of Coolidge.

The Application contains detailed information about the Project, and is on file at the Docket Control Center of the Arizona Corporation Commission, 1200 W. Washington, Suite #108, Phoenix, Arizona 85007 and at the Commission's Tucson Office at 400 W. Congress, Suite #218, Tucson, Arizona 85701. The Application is available for review at the Coolidge Public Library, and may also be viewed on the Project website at <http://www.transcanada.com/coolidge>.

These proceedings are governed by Arizona Revised Statutes Sections 40-360 and 40-360.13 and Arizona Administrative Code Rules R14-3-220 and R14-3-113. No substantive communications, not in the public record, may be made to any member of the Committee.

Dated this 14thth day of August, 2008.

John Foreman, Assistant Attorney General
Chairman, Arizona Power Plant and
Transmission Line Siting Committee
