Commissioner Tom Forese to conduct rooftop solar workshops **Meetings aim to shed light on rapidly changing industry**

Arizona Corporation Commissioner Tom Forese announced Thursday he will hold a series of workshops on the rooftop solar industry and its future in Arizona.

Forese says it will highlight the impact solar has on Arizona with the unique perspective from both out-of-state and local companies.

“A lot has been discussed about the solar industry but there is little known about their operations, business practices, and benefits to Arizona,” Forese said. “I want to provide an open forum for these companies to discuss how they interact with customers and what benefits we see in the state.”

Representatives from American Solar, Solar City, Solar Tops, and Elevation Solar, Vivint Solar, and SunEdison have been invited to attend.

The first workshop is October 14th at 9:00 a.m. at the Corporation Commission, 1200 W. Washington, Phoenix AZ.
