TARIFF FORMAT

- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the Tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the ACC. For example, the 4th Revised Page 14 would cancel the 3rd Revised Page 14. Because of various suspension periods, deferrals, etc., that the ACC follows in its Tariff approval process, the most current page number on file with the ACC is not always the Tariff page in effect. Consult the Check Sheet for the page currently in effect.
- C. Paragraph Numbering Sequence. There are various levels of alphanumeric coding. Each level of coding is subservient to its next higher level:
- 2
  - 2.1
  - 2.1.1
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a)
  - 2.1.1.A.1.(a)(1)
- D. Check Sheets - When a Tariff filing is made with the ACC, an updated check sheet accompanies the Tariff filing. The check sheet lists the sheet contained in the Tariff and gives the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated on the check sheet with an asterisk (\*). There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some pages). The Tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the ACC.

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.10 Interruption of Service

2.10.1 Without incurring liability, the Company may interrupt the provision of services at any time in order to perform tests and inspections to assure compliance with Tariff regulations and applicable law, and may continue such interruption until any items of non-compliance so identified are rectified.

2.10.2 The Company will consider customer requests for credit for faulty or incorrect connections and for other problems experienced by customers in the use of the Company's services on a case-by-case basis, and will provide reasonable credit in those cases in which it determines that the request is justified and the Company was at fault. All credit allowances shall be subject to the provisions of Section 2.4 above. It shall be the obligation of the customer to notify the Company immediately of any service problems for which a credit allowance is desired. Before giving such notice, the customer shall ascertain that the problem experienced is not being caused by any action or omission by the customer within the customer's control.

2.11 Restoration of Service

The use and restoration of Service shall be in accordance with the priority system specified in Part 64, Subpart D of the Rules of the Federal Communications Commission. When service has been discontinued for nonpayment, the Company may restore service as soon as reasonably possible upon receipt of payment of all outstanding charges and a service restoration fee of \$50.00.

The Customer will either be billed directly by the Company or its intermediary, or charges will be included in the Customer's regular telephone bill pursuant to billing and collection agreements established by the Company or its intermediary with the applicable telephone company. The Company may refuse to complete calls made by persons who receive regular telephone bills from a telephone company where for economic, technical and/or operational reasons the Company or its intermediary does not have an effective billing and collection agreement. To determine when calls cannot be completed, according to the Company's records, call 1 (800) 531-0457.

2.13 Deposits

The Company may require a Customer without established credit history to pay a deposit. Residential Customers deposits shall not exceed two times the Customer's estimated average monthly bill or the average monthly bill for the Customer class for that Customer whichever is greater. Nonresidential Customer deposits shall not exceed two and half (2 ½) times the Customer's estimated maximum monthly bill. The fact that a deposit has been made in no way relieves the Customer from complying with the prompt payment of bills on presentation. At such time service is terminated, the amount of the deposit will be credited to the Customer's account and any credit balance which may remain will be refunded. Such a deposit may be refunded or credited to the customer at any time prior to termination of the service at the option of the Company.

2.14 Advance Payments

For customers whom the Company feels an advance payment is necessary, the Company reserves the right to collect an amount not to exceed one (1) month's estimated charges as an advanced payment for services. The advanced payment will be applied against the next month's charges and, if necessary, a new advance payment will be collected for the following month.

2.15 Method of Service of Notices

Unless otherwise provided by this Tariff, any individual notice by the Company to the customer may be given either verbally to the customer or to the customer's authorized representative, or by written notice mailed to the customer's last known address.

2.16 Failure to Notify or Enforce

The failure to give notice of default, to enforce or to insist upon compliance with any of the terms or conditions herein, the waiver of any terms or conditions herein, or the granting of an extension of time for performance by the Customer shall not constitute the permanent waiver of any term or condition herein. Each of the provisions of this Tariff shall remain at all times in full force and effect unless and until modified in writing.

SECTION 3 - DESCRIPTION OF SERVICE

3.1 Timing of Calls

3.1.1 When Billing Charges Begin and Terminate for Phone Calls

The chargeable time for a long distance call is determined by the duration of the call. Chargeable time begins when connection is established between the calling station and the called station. When the called party picks up is determined by hardware answer supervision, in which the local telephone company sends a signal to the switch or the software utilizing digital format or audio tone detection. In any case, an unanswered call will not be billed. Chargeable time ends when the calling station hangs up or otherwise terminates the call. If the called station hangs up or otherwise terminates the call but the calling station does not, chargeable time ends when the connection is released either by automatic timing equipment in the telecommunications network or by the Underlying Carrier's operator.

3.1.2 Billing Increments

For UniendoAmérica® and LíneaPaís® Plans, the minimum call duration for billing purposes is one minute for a connected call. Customers will not be billed for calls of six seconds or less. After the first six seconds of a call, the Customer will be billed for one minute. Calls beyond one minute are billed in one minute increments.

For Startec Plans, calls are billed in one minute increments.

3.1.3 Per Call Billing Charges

Billing will be rounded up to the nearest penny for each call.

3.1.4 Uncompleted Calls

There shall be no charge for uncompleted calls.

SECTION 4 - MISCELLANEOUS CHARGES, (CONT'D.)

4.2 Public Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate calls that originate from any pay telephone, not presubscribed to the Company, used to access Company provided services. This surcharge, which is in addition to standard Tariffed usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access Company provided service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (e.g., using the "#" symbol). The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

5.1 Americatel Referral Program

The Referral Program is an incentive program in which current Americatel customers (Referring Customer) of any UniendoAmerica, LíneaPaís or LíneaPaís Prepagada service will be rewarded each time they refer a new Customer (Referred Customer) who subscribes to an Americatel UniendoAmerica, LíneaPaís or LíneaPaís Prepagada long distance plan. In order for a Referring Customer to be rewarded, he or she should be activated and the Referred Customer should remain activated for a minimum of one month.
