TARIFF FORMAT

- A. **Page Numbering** - Sheet numbers appear in the upper right corner of the Sheet. Sheets are numbered sequentially. However, occasionally, when a new Sheet is added between Sheets already in effect, a decimal is added. For example, a new Sheet added between Sheets 14 and 15 would be 14.1.

- B. **Numbers** - Revision numbers also appear in the upper right corner of each Sheet. These numbers are used to determine the most current Sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd Revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in its Tariff approval process, the most current Sheet number on file with the Commission is not always the Sheet in effect. Consult the Check Sheet for the Sheet currently in effect.

- C. **Paragraph Numbering Sequence** – There are five levels of paragraph coding. Each level of code is subservient to its next higher level:
 - 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.

- D. **Check Sheets** - When a Tariff filing is made with the Commission, an updated Check Sheet accompanies the Tariff filing. The Check Sheet lists the Sheets contained in the Tariff with a cross-reference to the current revision number. When new Sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this Sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some Sheets). The Tariff Authorized User should refer to the latest Check Sheet to find if a particular Sheet is the most current on file with the Commission.

A Customer may also reject future calls from the most recent call received by dialing a code after completing the call.
- C. Call Trace:** Allows a called party to initiate an automatic trace of the last call received. Call Trace is available on a usage basis only. After receiving the call which is to be traced, the Customer dials a code and the traced telephone number is automatically sent to the Company for further action. The results of a trace will be furnished only to legally constituted law enforcement agencies or authorities upon proper request by them. The Company is not liable for damages if, for any reason, the Call Trace attempt is not successful. After three successful traces to the same number, the Customer may request the Company take deterrent action. SECTION 8 - MISCELLANEOUS SERVICES**8.1 Carrier Presubscription****8.1.1 General**

Carrier Presubscription is a procedure whereby a Customer designates to the Company the Carrier which the Customer wishes to be the Carrier of choice for IntraLATA and InterLATA toll calls. Such calls are automatically directed to the designated Carrier, without the need to use Carrier access codes or additional dialing to direct the call to the designated Carrier. Presubscription does not prevent a Customer who has presubscribed to an IntraLATA or InterLATA toll Carrier from using Carrier access codes or additional dialing to direct calls to an alternative long distance Carrier on a per call basis.

8.1.2 Presubscription Options - Customers may select the same Carrier or separate Carriers for IntraLATA and InterLATA long distance. The following options for long distance Presubscription are available:

- Option A:** Customer select the Company as the presubscribed Carrier for IntraLATA and InterLATA toll calls subject to presubscription.
- Option B:** Customer may select the Company as the presubscribed Carrier for IntraLATA calls subject to presubscription and some other Carrier as the presubscribed Carrier for InterLATA toll calls subject to presubscription.
- Option C:** Customer may select a Carrier other than the Company for IntraLATA toll calls subject to presubscription and the Company for InterLATA toll calls subject to presubscription.
- Option D:** Customer may select the Carrier other than the Company for both IntraLATA and InterLATA toll calls subject to presubscription.
- Option E:** Customer may select two different Carriers, neither being the Company for IntraLATA and InterLATA toll calls. One Carrier to be the Customers' primary IntraLATA interexchange Carrier. The other Carrier to be the Customer's primary InterLATA interexchange Carrier.
- Option F:** Customer may select a Carrier other than the Company for no presubscribed Carrier for IntraLATA toll calls subject to presubscription which will require the Customer to dial a Carrier access code to route all IntraLATA toll calls to the Carrier of choice for each call.

Customers of record will retain their primary interexchange Carrier(s) until they request that their dialing arrangements be changed.

A new Customer will be asked to select IntraLATA and InterLATA toll Carriers at the time the Customer places an order to establish Local Exchange Service with the Company. The Company will process the Customer's order for Service. All new Customers initial requests for IntraLATA toll Service presubscription shall be provided free of charge.

If a new Customer is unable to make selection at the time the new Customer places an order to establish Local Exchange Service, the Company will read a random listing of all available IntraLATA and InterLATA Carriers to aid the Customer in selection. If selection is still not possible, the Company will inform the Customer that he/she will be given 90 calendar days in which to inform the Company of his/her choice for primary toll Carrier(s) free of charge. Discounts do not apply to surcharges or per call add-on charges for operator Services when the call is placed by a method that would normally incur the surcharge.

TDD: The credit to be given on a subsequent bill for such calls placed between TDDs will be equal to applying the evening rate during business day hours and night/weekend rate during the evening rate period.

TRS: The credit to be given on a subsequent bill for such calls placed by TDDs with the assistance of the relay center will be equal to 50% of the rate for the applicable rate period.
