Schedule A-1

**ORIGINAL** GENERAL RULES AND REGULATIONS

3. DISCONTINUANCE OF SERVICE - Continued

When a subscriber fails to pay bills for toll service rendered in connection with a particular exchange service, telephone service may be temporarily or permanently discontinued, provided the bill therefore has not been paid.

4. RATES AND OPTIONAL RATES

The rates to be charged by and paid to the Company for telephone service will be the rates legally in effect and on file with the Public Service Commission of the State of Nevada. Schedules of rates for exchange service in effect will be kept at all times in the Company's local Business Office where they will be available for public inspection during regular office hours.

5. OWNERSHIP AND USE OF INSTRUMENTALITIES ON SUBSCRIBERS' PREMISES

A. The subscriber will be held responsible for loss of or damage to any equipment or apparatus furnished by the Company, unless such loss or damage is due to causes beyond his control.

B. Except as otherwise provided in these Rules and Regulations, the Company will, at its own expense, furnish, install and maintain all wiring necessary to serve applicants or subscribers in accordance with its lawful rates, rules and regulations, and in accordance with its established construction standards.

**6. SUBSCRIBERS' PRIVATE SERVICE NOT FOR PUBLIC USE**

- A. Telephone service, other than "Public" service, is furnished for the use of the subscriber, his family, or his employees or representatives, except as service may be extended to "Joint Users."
- B. Flat rate and message rate services are not installed on premises of a public or semipublic character in a location where the telephone would be accessible for use by the patrons of the subscriber or the public in general.
- C. If it is found that the subscriber is permitting public use of service furnished him for his private use, the Company will thereafter provide "Public" or "Semipublic" service, except where the subscriber consents to the facilities being so located as to be inaccessible to the public and permits no further public use after the matter has been called to his attention.
- D. If it is found that the subscriber is sharing the use of business service with an individual, other than an employee, member or officer of the subscriber's concern, or another concern not of record as a joint user, the Company will thereafter require the subscriber to take "Joint User" service.

## CONNECTION WITH CUSTOMER-PROVIDED EQUIPMENT AND FACILITIES

### APPLICABILITY

Customer-provided terminal equipment connected to individual lines, PBX/ PABX trunk and station lines, and private based lines.

### TERRITORY

Within the exchange areas of all exchanges as said areas are defined on maps filed as part of the tariff schedules.

### CHARGES

1. Visit Charge (See "Conditions No.9")

Time worked by the repairman will be charged at the applicable standard time or overtime rate. Time is measured from the time the repairman leaves the maintenance facility until the time the repairman returns to that facility.

### SPECIAL CONDITIONS

1. Customer-provided protective circuitry or terminal equipment may be connected to facilities furnished by the Company for use with Local Exchange Telecommunications Service on the same terms and conditions as set forth in Title 47, Code of Federal Regulations, Ch. 1, Pt. 68, as amended and interpreted from time to time by orders published in the Federal Register.
2. The use of customer-provided circuitry or terminal equipment shall not require change in, or alteration of the equipment or other facilities of the company.
3. The company may make changes in its communications facilities, equipment, operations or procedures, where such action is not inconsistent with applicable laws, rules, and regulations.
4. The customer shall notify the company of his intention to connect registered or grand fathered equipment to company facilities. Such notification shall interlude where applicable:
  - a. The F.C.C. Registration Number, and
  - b. The Ringer Equivalency Number of registered terminal equipment or Protective circuitry, and

Schedule A-2

CONNECTION WITH CUSTOMER-PROVIDED EQUIPMENT AND FACILITIES

SPECIAL CONDITIONS - continued

- c. Sufficient identifying information such as the manufacturer's numbers to enable the company to determine that grand fathered equipment is eligible for connections.
- d. Other such information that may be required to assure the compatibility of the connected equipment and proper administration of applicable laws, rules, and regulations.

A customer who fails to notify the company of connection of grandfathered or registered terminal equipment or protective circuitry or is otherwise in violation of applicable laws, rules, and regulations will be subject to discontinuance of service.

- 5. Where any customer-provided facilities are used in violation of any of the provisions of this schedule, the company will take such immediate action as necessary for the protection of its facilities, including if necessary disconnection of service, and will promptly notify the customer of the violation. The customer shall discontinue such use of the facilities or correct the violation. Failure of the customer to discontinue such use or to correct the violation shall result in suspension of the customer's service until such time as the customer complies with the provisions of this schedule.
- 6. Customer-provided circuitry or terminal equipment shall be connected by means of proper interface termination (i.e. jack arrangement) provided by the company at charges based on cost of materials.
- 7. Customer-provided terminal equipment or protective circuitry may not be directly connected to party line service or coin service.
- 8. In the event customer-provided terminal equipment causes harm, the company will, when practicable, notify the customer that discontinuance of service may be required, however where prior notice is not practicable, the company may discontinue service forthwith. Where prior notice of discontinuance of service is not practicable, the company will:
  - a. Promptly notify the customer of such temporary discontinuance,
  - b. Afford the customer the opportunity to correct the situation which gave rise to the temporary discontinuance.

CONNECTION WITH CUSTOMER-PROVIDED EQUIPMENT AND FACILITIES

SPECIAL CONDITIONS - continued

"Harm" as used above means:

Electrical hazards to the company personnel, damage to telephone company equipment, malfunction of telephone company billing equipment, and degradation of service to persons other than the user of the subject terminal equipment, has calling or called party.

9. If trouble detected by or reported to the company results in the company dispatching one of its employees to the customer's premises and the trouble is determined not to be caused by company equipment or facilities, the customer will be so notified and will be liable for the maintenance visit charge as set forth in this schedule.

The visit charge is in addition to charges billed to the customer provided for in other schedules of this tariff.

10. The company will not repair, adjust or perform any work on customer provided equipment or facilities.
11. The company shall not be liable for damages caused by customer-provided equipment or facilities.

## GENERAL RULES AND REGULATIONS

### A. VACATION SERVICE

1. Upon request from any subscriber having a residential class of exchange service, the service may be placed on vacation for a period of 1 month and not to exceed 5 months in a 12-month period. No inward service is provided during such vacation period, only outward service:
2. Temporary vacation service may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made.
3. The reduction in rate for the period of vacation is equal to 50 percent of the exchange service charges, including charges for extension stations, directory listing, mileage and miscellaneous equipment. This reduction does not apply to charges for directory advertising service.
4. Vacation service may be activated up to 2 times in a 12 month period.
5. Vacation service is intended for the use of residential customers that wish to keep the outward service active during extended absences, thus avoiding the disconnect/reconnect service order process and possible loss of existing number. The intent to use vacation service for discounted outward service to access Internet Service Provider (ISP) services will result in termination of vacation service.

Bills are rendered at the regular billing dates during periods of vacation, and the terms of payment are the same as for regular service.

### B. RETURNED CHECKS, CREDIT CARD OR DIRECT DEPOSIT PAYMENTS

1. When payments of any bills or deposits are made by check, credit card or direct deposit and the check, credit card or direct deposit is returned unpaid for any reason, a charge of \$10.00 will apply for each returned check, credit card or direct deposit.
2. Upon either oral or written advice received from the customer's bank of error, any charges imposed under this tariff will be reversed.
3. Any charges imposed become due and payable with the next regular billing.

GENERAL RULES AND REGULATIONS

C. PUBLIC TELEPHONE SERVICE

1. A public telephone is an exchange station equipped with a coin-collecting device that is installed at the Telephone Company's option, at a location chosen or accepted by the Company as suitable and necessary for furnishing service to the general public.
2. Persons with who arrangements are made by the Telephone Company for the installation of Public Telephones are considered as the agents of the Company in serving the public.
3. Public telephones are installed upon the agent signing established forms of application, without specific term, terminable by either an agent or the Telephone Company upon written notice.
4. No listings in the directory are allowed in connection with public telephone service.
5. Local messages from Public Telephones are charged for at the rates shown in the General Exchange Service Tariffs and Toll Messages are charged for at the Telephone Company's established rates. No charges are applied to connections with the Telephone Company's toll operator, information clerk, repair clerk, business office or any of its duly authorized officials.
6. Rate:

### D. SEMI-PUBLIC TELEPHONE SERVICE

1. Rates  
Each outgoing local message.....\$ .25  
Toll Messages.....Established Toll Rates  
(See Schedule. T-1, Sheet No.1)  
Monthly Rate.....\$65.95

2. Conditions  
Semi-public telephone service is furnished to business customers at locations where the use is shared by the customer and the general public.

One directory listing may be provided for each customer.

Terminal loops for telephones suitable only for answering incoming calls may be provided. Terminal loops will be installed outside the premises on which the access line is located provided such off-premise terminal loops either (a) are in the same buildings as the primary station or (b) are located in separate buildings on the subscriber's continuous property within 300 ft., route measurement, from the primary station.

Installation, move and change charges will be those applicable to business service (See Schedule. E-1, Sheet No. 2) \*

The telephone number provided by the Company will be displayed on the telephone instrument at all times.

The dollar revenue received from the coins in pay telephones that are collected from users making local and Extended Area Service (EAS) calls shall off set the Semi-Public Telephone Rate billed to the customer that subscribes to Semi-Public Telephone service on a monthly basis.

GENERAL RULES AND REGULATIONS

E. CUSTOMER PROVIDED PAY TELEPHONE SERVICE

<u>Rates</u>	<u>Monthly Rate</u>
Public Access Line (PAL)	\$ 66.63

CONDITIONS

1. Customer provided coin-operated telephones may be provided at the option of the customer. This service will be provided through a flat rate Public Access Line and charged at the monthly rate set forth above.
2. Customer provided coin-operated telephones must be instrument-implemented. The customer shall be responsible for the installation, operation, and maintenance of any customer-provided pay telephones.
3. The telephone instrument must comply with Part 68 of FCC Rules and be installed to meet National Electrical Safety Standards.
4. The telephone instrument must comply with all Federal, State, and Local Laws, rules and regulations concerning the use of customer-provided pay telephones relative to use by the handicapped.
5. The telephone instrument must be able to access 911 Emergency Service, where available, Directory Assistance Service, and the "O" operator, at no charge and without using a coin.
6. The telephone instrument must allow 0+ long distance dialing capability.
7. The customer must display at each telephone instrument:
  1. The telephone numbers to access Directory Assistance, Emergency Service, Repair Service, Special Service, Local Service Area, intra and inter lata toll where applicable.
  2. The set telephone number.
  3. The rate to pay for local calls.
  4. The owner's name, address, telephone number.
  5. The procedures for refunds, complaints. The utility will not provide refunds.
  6. Which credit cards are usable.

GENERAL RULES AND REGULATIONS

E. CUSTOMER PROVIDED PAY TELEPHONES SERVICE (cont'd)

8. The telephone instrument shall be pre-pay only. The utility will not allow collect calls or third number charges to a Public Access Line. The telephone instrument will refund coin(s) on calls not completed.
9. The Customer Provided Pay Telephone Service will not charge a rate per local call higher than the Utility's Local Message Rate Schedule No. A-4, Sheet No. 36.1.
10. When any customer provided equipment is used with telecommunications services in violation of any of the provisions in this tariff, the company will take such immediate action as necessary for the protection of the telecommunications network and company employees, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment within 5 days, following the receipt of written notice from the company, that such use has ceased or that the violation has been corrected.
11. In addition to the rates and charges above, Public Access Lines shall bear all special charges related to Customer Provided Pay Telephone Service, such as maintenance of service (also Schedule T-1, provided in this tariff).
12. The customer shall be responsible for the payment of a Time and Material Charge for visits by a telephone company employee to the customer's premises when a service difficulty or trouble report results from the use of customer-provided pay telephones.
13. Prior to accepting order for Customer Provided Pay Telephone Service (CPPTS), utility will provide the customer with a copy of the Customer Provided Pay Telephone Service Tariff with its rules and regulations and obtain customer's written acknowledgement of receipt and disclosures of said tariff.

CUSTOM CALLING SERVICE (cont.)

SPECIAL CONDITIONS

1. Custom Calling Service requires special central office equipment and will be provided only where facilities are available.
2. Custom Calling Service will not be provided in connection with Semi-Public Service, Private Branch Exchange Trunk Line Service or Centrex Service.
3. Description of service:
  - a. Call Forwarding
    1. Call Forwarding Manual permits the customer to arrange his service to automatically forward (transfer) all incoming calls to a busy line to a predetermined telephone number.
    2. Call Forwarding Busy permits the customer to forward incoming calls to a busy line to a predetermined telephone number.
    3. Call Forwarding No Answer permits the customer to automatically forward all incoming calls to a predetermined telephone number after a customer determined number of rings.
  - b. Call Waiting  
Call Waiting permits the customer engaged in a call, to receive a tone signal indicating a second call is waiting, and by operation of the switch hook to place the first call on hold and answer the waiting call. Thj2 customer may alternate between the two calls by operation of the switch hook but a three-way conference cannot be established.

Schedule No. A-5

CUSTOM CALLING SERVICE (cont.)

SPECIAL CONDITIONS (cont.)

c. Enhanced Call Waiting

Same as above except allows telephone user to deactivate and activate call waiting at their discretion.

d. Three-Way Calling

Three-way calling permits the customer to add a third party to an established connection. When the third party answers two-way conversation can be held before adding the original party for a three-way conference. The customer initiating the conference controls the calls and may disconnect the third party to re-establish the original connection or establish a connection to a different third party. The feature may be used on both ongoing and incoming calls.

e. Customer Changeable Speed Calling

Customer Changeable Speed Calling permits the customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. The feature is available as an eight or thirty code list. Either code list may include local and/or toll telephone numbers. To establish or change a telephone number in a code list, the customer dials an activating code, receives a second dial tone and dials either a one or two digit code (for eight code and thirty code lists respectively) plus the telephone number.

f. Teen service allows up to four (4) telephone numbers to ring on the same line using distinctive ringing.

g. Call Transfer

Call Transfer provides the ability to transfer incoming calls to any other telephone number or add a third person. When the customer hangs up the other two people can continue their conversation.

4. The Call Forwarding Service customer is responsible for the payment of applicable charges for each completed call between his call forwarding equipped station and the station to which the call is forwarded. This charge, local, message unit or dial station toll, applies to all forwarded calls that are answered at the station at which the calls are forwarded.

Charges between the originating station and the call forwarding equipped station are applicable in accordance with regularly filed tariffs, local, message unit, dial station, operator station or person toll.

5. Custom Calling Service features may be provided to customers with either rotary dial telephones or touch calling telephones.

6. The quality of transmission of calls which are forwarded or on three-way calling may vary depending on the distance and the routing necessary to complete each call and normal transmission is not guaranteed on any forwarded call or three-way call.

7. Only one type of customer changeable speed calling may be provided on each line, either eight code or thirty code.

8. Where a change of telephone set is made at the customer's request and not necessitated by the provision of a Custom Calling Service feature, the applicable Multi-Element service connection charges as set forth in Schedule No. E-1 will apply.

CUSTOM CALLING SERVICE (cont.)

CLASS SERVICES (cont.)

## TERMS AND CONDITIONS

### LIABILITIES FOR CALLER IDENTIFICATION BLOCKING

The Company cannot guarantee that Caller Identification blocking will be one hundred percent successful. The only liability of the Company due to errors, omissions, or mistakes with respect to blocking shall be to refund the charge for the blocking, if any, and the Company shall not otherwise be liable for any damages whether consequential, incidental, special, or otherwise.

In the case of Class Services, it is the responsibility of the subscriber to request Line Blocking for continual Line Blocking. The company will be held harmless from any damage which might arise and which absolves the company from any responsibilities for the failure of the customer to receive calls because of the Line Blocking arrangement.

Call Trace information may be given to law enforcement agencies ONLY. Under NO circumstances will the customer be given the name or telephone number of the person who called.

Class Services are available only in exchanges where facilities and operating conditions permit.

## DEFINITIONS

### CUSTOM LOCAL AREA SIGNALING SERVICE (CLASS)

CLASS (Custom Local Area Signaling Services) Services are a group of central office-based custom calling features offered in addition to basic exchange telephone service. CLASS Services are made possible by passing the calling party's telephone number to the called party. In the case of Caller Identification Service, a special caller display unit or telephone capable of displaying caller identification information is required. Per Line and Per Call Blocking is provided free of charge to all customers in exchanges where CLASS services are offered. A monthly recurring charge for Per Line Blocking and Per Call Blocking does not apply.

RECEIVED  
FEBRUARY 29 2008

Schedule No. A - 5

CUSTOM CALLING SERVICE (cont.)

CLASS SERVICES (cont.)

DEFINITIONS (cont.)

4. Last Call Return

Allows a customer to dial a code that will cause the feature to automatically redial the number of the last incoming call to that line, whether the call was answered or not. The customer does not have to know the number of the calling party. If the called number is busy, the feature will redial the called number for a limited period of time. A distinctive ring alerts the customer when the called line is available. The feature does return calls to numbers that have been blocked but does not identify that number.

5. Priority Call

Allows a customer to assign a maximum of fifteen callers' telephone numbers to a special list. The customer will hear a distinctive ring at his/her location when calls are received from callers' telephone numbers on that list.

6. Selective Call Forwarding

Allows a customer to specify a special list of a maximum of fifteen telephone numbers. Incoming calls placed to the customer from telephone numbers on that list will automatically be forwarded to a predefined telephone number. All other calls will be handled normally.

7. Selective Call Rejection

Enables the customer to reject call attempts from up to fifteen numbers of calling parties by dialing a code and the telephone numbers of calls to be rejected. Any call attempts to the customer from these numbers will be prevented from terminating to the customer and will instead be connected to an announcement informing the caller that the call is not presently being accepted by the called party. A customer may also reject future calls from the most recent call received by dialing a code after completing the call.

Schedule No. A - 5

CUSTOM CALLING SERVICE (cont.)

CLASS SERVICES (cont.)

DEFINITIONS (cont.)

8. Call Trace

This feature allows a called party to initiate an automatic trace of the last call received. After receiving the call which is to be traced, the customer dials a code and the traced telephone number is automatically sent to the Company.

9. Call Waiting Display

Allows the customer to view the telephone number of a call in the call waiting mode. The display appears between the first and second audio tones, alerting the subscriber that another call is incoming. The customer can then choose to accept or ignore the incoming call based on the information.

10. Caller Identification Blocking - Per Line

This provides a permanent private indicator on a customer's line. Once blocking is established on the customer's line, the private status can be deactivated by dialing a code, \*82 or 1182 on rotary phones before each call, to change the indicator from private to public. This one call unblock allows the number to be sent for that one call only. All lines in CLASS equipped central offices will have access to the feature.

If a line is equipped with Caller Identification Blocking - Per Line, the number of that line will not be delivered to any subscriber of Caller Identification. Poison control centers, hospitals, medical centers and others who might use Caller Identification will not be able to identify callers with Caller Identification Blocking - Per Line who need assistance. E9-1-1 is not affected. This service is not available to our business subscriber.

DEFINITIONS (Cont'd)

11. Caller Identification Blocking – Per Call

Enables a customer to control the disclosure of his/her telephone number to a subscriber of Caller Identification by temporarily changing the public/private status indicator of the telephone number. A customer must dial \*67 or 1167 on a rotary phone before each call to change the indicator from public to private. "Private Status" prevents delivery of the telephone number. Per Call Blocking is provided at no charge.

RIO VIRGIN DIGITAL CENTREX

CONDITIONS

1. Rio Virgin Digital Centrex (RVDC) is offered from those central offices properly equipped and is furnished subject to the availability of facilities. Not all optional features are available from all central offices equipped for RVDC service.
2. The quality of transmission may vary when calls are forwarded or connected via RVDC conferencing depending on the distance and routing involved.
3. RVDC is not provided on public, semi-public, or Shared Pay Telephone services.
4. Touchtone signaling is required for each RVDC line. A touchtone telephone instrument is required to use the # and \* for speed calling and other features.
5. Custom Calling Features, as offered in Schedule A-5 are not available in association with RVDC service.
6. A foreign exchange or Feature Group A line may not be terminated in an RVDC system.
7. In the case that a substantial Company investment in outside plant is required to establish RVDC Service, a three-year Basic Termination Agreement may be required to protect the Company's investment.
8. Line extension charges may apply when modification or additions to facilities are required.
9. Terminal equipment provided by the, customer must be compatible with the service and equipment provided by the Company.

APPROVED  
DATE OF FILING

Schedule No. A-7

RIO VIRGIN DIGITAL CENTREX

CONDITIONS (cont.)

10. Where the RVDC station line of the same system is located in a different exchange area, the special circuit charges apply for each interexchange channel as specified in Schedule E-1, Item 4, on A.C.C. Sheet No. 6.
11. The customer who elects to subscribe to RVDC service may choose a 3-, 4-, or 5 year contract period. Contracts are based on a per location basis. If the RVDC system serves more than one location, a contract will be issued per location. A 3-year contract includes a 3% system discount; a 4-year contract includes a 4% system discount; a 5-year contract includes a 5% discount. The discount is applicable to the RVDC features (Terminal Loops, Feature Package, and Direct Inward Dialing Station Lines). The customer must agree to retain the items in service for the entire contract period. Lines of features added subsequent to the original contract are billed at the discounted rate.
12. The 3-4% discounts apply to the current tariff rate for such service. The percent discount will remain the same under the contract although the rates may be subject to change with approval from the Commission.

If the customer discontinues any of the features prior to the expiration date at the location under which the contract is in place, a cancellation charge will apply based on the following formula:

$$\begin{array}{r} \text{QUANTITY OF} \\ \text{EACH FEATURE} \end{array} + \begin{array}{r} \text{MONTHLY} \\ \text{FEATURE} \\ \text{RATE} \end{array} + \begin{array}{r} \text{NUMBER OF} \\ \text{MONTHS} \\ \text{REMAINING} \end{array} \times 49\% = \begin{array}{r} \text{CANCELLATION} \\ \text{CHARGE} \end{array}$$

13. Rates for 21 or more RVDC station lines will be priced on an individual basis, with rates not to be below costs.
14. Applicable FCC subscriber line charges as well as EAS and city surcharges apply on all Centrex trunks and lines.

RIO VIRGIN DIGITAL CENTREX

DEFINITIONS

Attendant Features

Features used by the attendant from the console if a central answering point for all incoming calls is required.

Automatic Route Selection

For customers who have several types of routing available, the trunks are automatically searched and each call sent over the least expensive route available.

Business Set Display

Can display the called number, the calling number, the feature being used, and the time of day.

Business Set Features

Permits a station to access various RVDC features through the use of a button on the telephone instrument rather than by dialing access codes.

Call Forward - All Calls

Allows a station to have all calls forwarded to another predetermined station of the attendant. This feature is system-based and cannot be manually changed by the user.

Call Forward - Busy

When a station is busy, all calls are routed to another predetermined station of the attendant.

Call Forward - Don't Answer

When a station does not answer an incoming call within a prescribed time, the call is routed to another predetermined station or the attendant.

Call Hold

Allows a user to put a caller on hold.

Schedule No.A-7

RIO VIRGIN DIGITAL CENTREX

DEFINITIONS (cont.)

Call Park

Allows a user to "hold" an in-progress call on his or her own number or another station's number by dialing a code. The call can then be picked up from any other station by dialing a code.

Call Pick-up

Allows a station other than the called station to pick up an incoming call.

Call Transfer

Allows a user to transfer an incoming call to another station.

Call Waiting

An incoming call encountering a busy station receives audible ringing and the busy station receives a call waiting tone. The busy station can answer the second call without losing the first.

Class of Service Restriction

Provides the capability of allowing or denying individual station features. Restrictions can be arranged to control all calls originating or terminating on a station.

Fully Restricted - Station is denied access to the public network and the attendant.

Semi-Restricted - Station is denied access to the public network only through the attendant.

Toll Restricted - Station is restricted to local calls only.

Unrestricted - Station is allowed full access to the public network.

RIO VIRGIN DIGITAL CENTREX

DEFINITIONS (cont.)

Direct Inward System Access

Allows selected outside access lines to dial from the switched network directly into RVDC system and gain access to system facilities without attendant assistance.

Do Not Disturb

Allows attendant to program a station so it will not receive any calls. The station still permits dialing out.

Executive Busy Override

Allows a station user to gain access to a busy station; the calling station is then connected to the in-progress call at the busy station.

Group Speed Call

A maximum of 70 stored numbers assigned speed calling location codes. There is a single controller of the list but an many users in the speed call group as desired.

Intercom

Allows abbreviated digit dialing of one station within the RVDC system by another station.

Off-Premises Extension Station

A station located on premises other than the main customer premises.

Paging Access

Allows a station or the attendant to gain access to loudspeaker paging equipment.

Schedule No. A-7  
DIRECT INWARD-DIALING SERVICE

1. DIRECT INWARD - DIALING SERVICE

A DESCRIPTION

Direct-Inward-Dialing Service is a central office feature that provides the customer a means of sending digits from the central office to a switched service vehicle located on the customer's premises.

B. CONDITIONS

- a. Direct-Inward-Dialing (DID) service is offered from those central offices properly equipped and is furnished subject to availability of facilities.
- b. DID trunks are equipped for one-way inward service only and all trunks in a trunk group serving DID station lines must be equipped for DID service.
- c. DID will be installed for a minimum period of not less than 36 months. If a customer discontinues DID service prior to the expiration of the 36 month minimum, a cancellation charge will apply based on the following formula:

Quantity of Trunks & Stations	X	Monthly Rate	Number of Months X 49% = Remaining	Cancellation Charge

DIRECT INWARD-DIALING SERVICE

2. CONDITIONS (cont.)

- d. The assignment of telephone numbers and the sequence of the numbers assigned to DID service is made at the discretion of the company.
- e. Listing for DID telephone numbers will be provided, subject to the charges rates, and conditions for business additional listings.
- f. All calls to DID telephone numbers will be routed to the customer's PBX for handling.
- g. DID telephone numbers held for future use may only be reserved for one year.
- h. Activation of DID telephone numbers held for future use may be activated in groups or one at a time for the same activation fee.

3. RATES

a. Direct - Inward-Dialing

1. DID Trunk

(same as PBX Trunk Rate listed on Sheet 1, Schedule No. L-1)

2. Rate per DID telephone number

(minimum of 30 numbers)

Recurring \$5.00

3. Rate per DID non-activated telephone number  
dedicated for future use

\$0.15

b. Installation

1. Initial installations per system

Non-recurring \$600.00

2. Non-recurring charges on Sheet 1, Schedule No. E-1 will

apply for additions and changes on DID trunks and/or telephone numbers, except activation of "dedicated for future use numbers."

3. Activation of future use telephone numbers.

\$10.00

SWITCHED DIGITAL EXCHANGE SERVICE OFFERINGS

1. DIGITAL SWITCHED SERVICE (DSS)

A DESCRIPTION

Digital Switched Service (DSS) provides digital exchange service for PBX customers. DSS includes a DS 1 facility, common equipment, local exchange switching for access to the local exchange and toll networks. Each DS 1 facility utilizes 24 channels.

B. DEFINITIONS AND APPLICATION OF SERVICE

DS 1 Facility and Common Equipment

This element includes the digital DS 1 facility, transmitting at a rate of 1,544 Mbps, and the common equipment necessary to interface each of the 24 channels into the CO switch. The DS 1 signal provided to the customer's premises will have a loss not greater than 16.5 db.

Fiber Optic Facility

The DS 1 facility may be provided, at the customer's request via a fiber optic facility between the company's CO office and the customer's premises. Special construction charges may apply.

SWITCHED DIGITAL EXCHANGE SERVICE OFFERINGS

1. DIGITAL SWITCHED SERVICE (DSS) (cont.)

C. REGULATIONS

1. DSS is provided subject to the availability of central office facilities.
2. The type of DSI facility installed will be determined by the company.
3. Each DS 1 facility enables the customer to add up to a maximum of 24 trunks per DS 1 facility. The customer is billed for the actual number of channels used.
4. Regulations, rates and charges, as described elsewhere in this tariff apply as appropriate.
5. When Outward Wats or 800 service terminates on a DSI facility, the Outward Wats and 800 service access lines are classified as basic trunks for the application of DS 1 facility and common equipment rates and charges.
6. The following services will not be provided within the DS 1 facility:  
Feature groups A,B,C, & D  
Other private line/access services and facilities unless specified herein  
Joint User Service
7. Temporary suspension of service is only available for trunks, and only if all trunks within the facility are suspended. It is not available for the DS 1 facility and common equipment.

ENHANCED EMERGENCY NUMBER (E911) SERVICE

I. DESCRIPTION

EMERGENCY NUMBER SERVICE (911)

A telecommunications service that provides for the routing of all calls dialed to 911 and originating from telephones with specified central office prefix codes, to a single Public Answering Point. (PSAP). This service is limited to the use of central office telephone number 911 as the universal emergency telephone number, and only one 911 service will be provided within any government agency's locality. The service is furnished to the customer only for the purpose of receiving reports of emergencies from the public.

ENHANCED 911 SERVICE (911)

Enhanced 911 (E911) is an expanded application of basic 911 that includes Automatic Number Identification (ANI). E911 also provides information for data bases providing Automatic Location Identification (ALI).

II. TERMS

A. CUSTOMER

A municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local units to whom authority has been lawfully delegated. The customer must be legally authorized to operate the 911 equipment and have public safety responsibility to respond to telephone calls from the public for emergency service within the designated telephone serving area.

## ENHANCED EMERGENCY NUMBER (E911) SERVICE

### II. TERMS (cont.)

- B. **AUTOMATIC NUMBER IDENTIFICATION (ANI)**  
A feature by which the calling party's telephone number is forwarded to the 911 Tandem Office and displayed on Transfer and Display Units located at the respective Public Safety Answering Point.
- C. **AUTOMATIC LOCATION IDENTIFICATION (ALI)**  
A feature by which the name and address associated with the calling party's telephone number is forwarded to the respective Public Safety Answering Point for display.
- D. **PUBLIC SAFETY ANSWERING POINT (PSAP)**  
An answering location for all service calls originating in a given area. A PSAP may be designated as primary or secondary to indicate the order in which calls are directed for answering. PSAPs are staffed by employees of public service agencies such as police, fire or emergency medical personnel or by employees of a common agency serving a group of public service entities.

### III. CONDITIONS

- A. The Company agrees to furnish the customer E911 Service. Lines, equipment and facilities offering only one E911 service will be provided within the customer's locality. The lines, equipment and facilities provided will be designed by the Company to provide at least the same level of service reliability and quality as local exchange telephone service in the exchanges where E911 service is offered to the customer.

ENHANCED EMERGENCY NUMBER (E911) SERVICE

III. CONDITIONS (cont.)

- B. The 911 customer must subscribe to a minimum of two 911 emergency lines from each end office wire center entity serving the PSAP.
- C. The 911 customer must order sufficient quantities of incoming administrative lines, incoming emergency lines, and outgoing lines to prevent interference with, or cause harm to, the utility's exchange and message toll network or, cause a condition which will be detrimental to the service of the utility's other customers.
- D. The equipment and facilities are furnished to the customer only for use in its efforts to receive reports of emergencies by the public. The provisions of such lines, equipment, and facilities shall not be interpreted, construed, or regarded as being for the benefit of, or creating any obligation of the Company towards or any right of action on behalf of, any third person or other legal entity.
- E. The Company does not undertake to answer and forward E911 calls, but furnishes the use of its facilities to enable the customer and the customer's personnel to respond to such calls on the premises of the customer.
- F. The rates charged for the lines, equipment, and facilities do not contemplate and the Company does not undertake inspection or monitoring to discover errors, defects and malfunctions. The Customer shall promptly notify the Company in the event the line, equipment, or facilities are not functioning properly. Thereafter the company will make such tests as it determines is necessary and appropriate to determine whether the system is functioning properly for its use by the customer.

## ENHANCED EMERGENCY NUMBER (E911) SERVICE

### III. CONDITIONS (cont.)

- G. Because of the sophisticated and complex nature of the telecommunications equipment required for E911 service, the Company shall have such reasonable time as required under the circumstances for installation, maintenance and repair.
- H. The customer is responsible for the implementation and ongoing administration of the data base associated with Automatic Location Identification (ALI). The Company will assist the customer in the creation and updating of the ALI data base, relating to those local exchange customers residing within the Company's service areas.
- I. When 911 is dialed, no charge will be made to the calling party.
- J. E911 information consisting of telephone numbers and the locations of telephone customers whose listings are not published in directories or listed in Directory Assistance Offices is confidential. Information will be provided on a call-by-call basis only for the purpose of responding to emergency calls.
- K. Any party residing within the E911 Designated Calling Area forfeits the privacy afforded by non listed and non published directory listing service to the extent that the telephone number and the address associated with the originating station location are furnished to the Public Safety Answering Point.

ENHANCED EMERGENCY NUMBER (E911) SERVICE

III. CONDITIONS (cont.)

- L. The Company's customer records (i.e. names, addresses and telephone numbers) are confidential proprietary. The customer will maintain the confidentiality of these records and will establish controls to ensure this information is only used in connection with the customer's responsibility to respond to calls from the public for emergency services.
- M. The customer agrees and understands that the Company's area of service and the customer's jurisdictional boundaries may not be identical. In this regard, the Company will make all reasonable efforts to provide alternate routing of all calls that originate outside the customer's jurisdiction. The customer, likewise, will make all reasonable efforts to forward the emergency calls received from outside the customer's jurisdiction to the appropriate emergency agency and will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to a E911 service PSAP by calling parties. Both the Company and the customer will cooperate to ensure a timely resolution of all problems associated with any non-customer jurisdictional calls.
- N. Where service or equipment is available for use in connection with customer-provided communications equipment, the characteristics of such equipment shall be such as not to interfere with any of the features or equipment offered by the Company. Such use is subject to the further provisions that the equipment does not : (1) endanger the safety of Company employees or the public; (2) damage or require alteration of any Company-provided equipment or facilities;

N. (cont)

(3) interfere with the proper functioning of Company-provided equipment or facilities; (4) impair the operation of the telecommunications system, or (5) otherwise injure the public in its use of Company services. Upon notice from the Company that the systems provided by the customer are causing, or are likely to harm or impair the operation of telecommunications services provided by the company, the customer shall implement all required alterations as shall be necessary to remove or prevent such hazard or interference. Customer shall be responsible for the payment of all charges for visits by Company to customer's premises where service difficulty or trouble report results from equipment provided by customer. In instances where Company personnel are required to be at the customer's location for purposes of testing, troubleshooting, or any working connection with customer's equipment, customer shall be billed the actual costs for time and materials expended on that particular call out.

O. The Company will make all reasonable additions, modifications, or removals of equipment components at the customer's request. Each such addition, modification, or removal will be subject to the actual costs for time and materials expended at the time the work is performed.

P. Upon appropriate notice to the PSAP supervisor on duty, the Company and its duly authorized agents and employees shall have the right of ingress and egress where company equipment is installed for the purpose of inspecting, maintaining, and repairing said equipment for all other purposes necessary to the performance of this agreement.

GENERAL EXCHANGE SERVICE TARIFFS

RESALE/SHARING OF COMPANY SERVICES

A. General

1. Customers engaged in the Resale/Sharing of Exchange Services furnished by the Company shall be subject to the terms and conditions specified in this section.
2. Access to the network furnished to the customer-of-record is limited to the following Type and Classes of Service:
  - Business PBX trunks
  - Business access lines
3. Customer provided coin telephone service may be provided at rates and conditions specified in Schedule A-4.
4. Access lines provided in a Resale Service Area may be arranged for Hunting Service at rates and charges as specified in Schedule E-1.
5. The customer-of-record must notify the Company in writing of his/her intent to resale/share Company services. In addition, the customer-of-record must provide the Company with a legal description and any other documents, such as a map, to delineate the Resale/Sharing Service Area. When the Resale/Sharing Service Area is a building, all of the building must be included.
6. The Company will provide service to the customer-of-record under the following conditions:
  - a. The Company retains the right to directly serve the individual customers inside the Resale/Sharing Service Area upon request from such customers.
  - b. The Company will be provided access or rights-of-way to directly serve individual customers in the Resale/Sharing Service Area.

RESALE/SHARING OF COMPANY SERVICES (cont.)

A. General (cont.)

6. (cont.)

c. The customer-of-record must be prepared to provide the facilities which the Company requires initially and/or subsequently to directly serve individual customers who have requested any telecommunications service from the Company in the Resale/Shared Service Area. The Company shall select the least cost (to the Company) option of the following:

- (1) Wire or cable provided to the Company in risers, raceways or other supporting structures provided at no cost by the building owner or customer-of-record; or
- (2) Lease from the building owner or customer-of-record wire or cable facilities that would normally be provided by the Company and that are in place and not being utilized at a one-time charge of 15 cents per pair route foot, applicable for the entire period of use of such wire or cable pairs; or

- d. In addition, the individual customer has the right to furnish "its own wire or cable facilities.
- e. All such facilities must comply with Part 68 of the F.C.C. (47 C.F.R. Part 68) and the National Electrical Code, as may be amended from time to time.
- f. The Company will not provide service to a customer-of-record who assesses a surcharge to any individual customer who requests to be served directly by the Company.

7. In a high rise building, or buildings in a campus arrangement, the customer-of-record is required to provide conduit and/or supporting structures from the cable entrance to the building to the network interface.

LINK UP

1. GENERAL

Applicable to all residential customers of the Company who apply for basic residential service, and meet the eligibility requirements detailed below.

2. DESCRIPTION

Link Up consists of a 50% discount, up to a maximum of \$30 for new service connection charges to connect the customer to the local telephone network.

In addition, the customer may defer payment on up to \$200 on connection charges without interest for a period not to exceed one year. The deferred charges do not include any permissible security deposits required. The deferred charges shall be paid in equal monthly portions over the deferral period. If any payments are delayed, interest shall accrue from that ~ date forward.

3. ELIGIBILITY REQUIREMENT

A. An applicant must meet all of the following criteria in order to qualify for Link Up.

1. The consumer must participate in one of the following programs:

- a. Medicaid
- b. Food Stamps
- c. Supplemental Security Income (SSI)
- d. Federal Public Housing Assistance
- e. Low Income Home Energy Assistance Program
- f. Consumer's income at or below 150% of the federal poverty guidelines (FPG)
- g. Temporary assistance to needy families (TANF)
- h. National school lunches (NFL)
- i. State Children's Health Insurance Plan (SCRIP)

LIFELINE SERVICE

1. GENERAL  
Applicable to qualifying low-income subscribers to single party residential service of the Company.

2. RATES

A. Baseline Lifeline is a reduction or credit in the local service charges normally paid by qualifying low-income consumers. The reduction to the normal residential one-party rates are as follows:

<u>Residential Access Lines</u>	<u>Monthly Credit or Discount</u>
Federal baseline Lifeline reduction	*
Federally funded Reduction in Local Rate	\$1.75
* (100% of Interstate Subscriber Line Charge)	

These reductions or credits are from the normal residential one-party service subscribed to by the consumer. The Federal Baseline Lifeline reduction shall be used to waive the consumer's federal End-User common Line Charge or Subscriber Line Charge. In no case will the discount exceed the rate charged for the service subscribed to by each individual.

- B. 1.) The following services are included:
- 2.) Single-party, voice grade access to the public switched network;
- 3.) Access to emergency services;
- 4.) Access to operator services;
- 5.) Access to inter exchange service, unless toll blocking is chosen;
- 6.) Access to directory assistance; and
- 7.) Toll blocking.

3. ELIGIBILITY REQUIREMENTS

A. An applicant must meet all of the following criteria in order to qualify for Lifeline Service:

- 1.) To qualify for Lifeline, the consumer must participate in one of the following programs: (a) Medicaid (b) Food Stamps (c) Supplemental Security Income (SSI).

LIFELINE SERVICE (cont.)

3. ELIGIBILITY REQUIREMENTS (cont.)

- D. If the consumer chooses "toll blocking" the company will not charge a service deposit.
- E. A customer is not eligible for Lifeline from the Company if he/she is currently receiving Lifeline and Link Up credit for services provided by another Eligible Telecommunications Carrier.
- F. Low income customers who qualify under Arizona Low Income Telephone Assistance Plan (ALITAP) will receive the federal baseline support amount equal to 100% of subscriber line charge plus the additional \$1.75 in federal Lifeline support. ALITAP customers are also eligible to receive matching federal Lifeline support in an amount equal to one-half the amount of the state support. For example, if the 17% discount in local service charges contributed by the state equaled \$2.00, the matching federal Lifeline support amount would equal \$1.00. State support und A.R.S. 46.703 would be in addition to this amount.

4. VERIFICATION AND RECORDS

- A. Verification of customer continuing eligibility shall be via statistically valid sampling or other means performed by the Company on an annual basis.

LOCAL EXCHANGE SERVICE TARIFFS

A. APPLICATIONS

These Tariffs apply to the local telephone exchange services of the Rio Virgin Telephone Company, hereinafter referred to as the Telephone Company, in its Littlefield and Black Rock Exchanges, located in Mohave County, Arizona.

B. GENERAL

The charges quoted in this Tariff or in the General Rules and Regulations and the General Exchange Tariffs are for periods of one month, are payable monthly in advance, and entitle the customer to exchange telephone service within the Mesquite Exchange.

C. MONTHLY ACCESS LINE RATES - LITTLEFIELD EXCHANGE

1 Party Residence	\$10.00
1 Party Business	13.00
PABX Trunk	19.50
Key System	19.50

D. MONTHLY ACCESS LINE RATES - BLACK ROCK EXCHANGE

1 Party Residence	\$11.00
1 Party Business	17.00
PABX Trunk	25.50
Key System	25.50

The above rates do not include customer premises inside wire, the telephone instrument or other terminal equipment. The telephone company's responsibility for service stops at the demarcation point (the protector) unless arrangements have been made with the telephone company for maintenance or repair of facilities on the customers side of the demarcation point.

UNIVERSAL SERVICE FUND

The surcharges set forth below relate to funding the Arizona Universal Service Fund (AUSF) and are in addition to the rates and charges for access service, toll service, and local service set forth in the applicable tariffs. If the Company determines it has collected its annually assessed amount prior to the end of the calendar year, it will suspend collection of these surcharges for the remainder of that year, subject to any subsequent adjustment necessitated by Commission order.

ACCESS PORTION

AUSF CCL Originating Minutes Surcharge:

Currently assessed surcharge, per originating CCL minutes (1,2)	<u>Rate</u> \$0.0005278
--	----------------------------

TOLL PORTION

AUSF Surcharge for intra LATA toll: Currently assessed surcharge, per message (1,2)	<u>Rate</u> \$0.002
--	------------------------

LOCAL PORTION

AUSF Surcharge applied to each access line on a monthly basis: Currently assessed surcharge, per access line per month (1,2)	<u>Rate</u> \$0.02
---	-----------------------

NOTE 1. Surcharge per Decision No. 56657. As the Arizona Corporation Commission issues orders which increase or decrease the requirement for AUSF funding, this surcharge amount will be adjusted accordingly.

NOTE 2. Adjustments to this surcharge shall be effective upon 30 days notice to the Arizona Corporation Commission, unless otherwise ordered by the Commission.
