**TARIFF FORMAT**

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a).
  - 2.1.1.A.1.(a).I.
  - 2.1.1.A.1.(a).I.(i).
  - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

## SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

## 3.4 Prepaid Institutional Calling Services

## 3.4.1 General

Prepaid Institutional Calling Services provide alternative payment arrangements for inmates in Confinement Institutions and called parties. Prepaid Institutional Calling Services are available 24 hours a day, seven days per week. Access to telephone service by an inmate may be subject to time of day, usage and other restrictions imposed by individual Confinement Institutions. No minimum service period applies.

Network usage for Prepaid Institutional Calls is deducted from the Available Usage Balance in full minute increments. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest penny on a per call basis.

The called party is automatically informed of the Available Usage Balance remaining in the Prepaid Account prior to acceptance of the call. Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses. A reminder message is also provided when the account balance has one minute of usage remaining. All calls must be charged against an account that has sufficient available balance. Calls in progress will be terminated by the Company if the balance on the account is insufficient to continue the call.

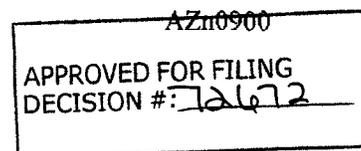

Payment for Prepaid Institutional Calling Services and any Available Usage in the Prepaid Account is refundable upon request by the called party. The Available Usage Balance expires six months from the date the last call is made on the Prepaid account. No refunds of unused balances will be issued after the expiration date.

Two options are available with Prepaid Institutional Calling Services. The first option, the Prepaid Debit Account, allows the inmate to set up his/her own prepaid account at the Confinement Institution; the second option, Prepaid Collect Service, allows the Called Party who receives collect calls from inmates to set up his/her own prepaid account.

**SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)**

**3.4 Prepaid Institutional Calling Services, (Cont'd.)**

**3.4.1 General, (Cont'd.)**

**A. Option A: Prepaid Debit Account**

With a Prepaid Debit Account, the inmate is assigned a Personal Identification Number (PIN.) When the inmate places a call, he/she enters the PIN and called telephone number. All deposits to the account are paid into the inmate's commissary account. Families may fund the account through the Company's website, or via credit card by calling into the Company's customer service center, or through a payment kiosk located in a public area of the correctional Institution. If the payment into the account is provided via credit card, credit verification procedures are carried out under the terms specified in Section 2 of this tariff.

The Company's system automatically informs the caller of the Available Usage Balance remaining in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number. Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses.

**B. Option B: Prepaid Collect Service**

Prepaid Collect Service is available for use by individuals who receive collect calls from inmates in Correctional Institutions. Once an account is established, all collect calls from the facility to the telephone number associated with the prepaid collect account are automatically processed as prepaid collect. If the payment into the account is provided via credit card, credit verification procedures are carried out under the terms specified in Section 2 of this tariff. Deposits to the account are paid to and handled by the Company via arrangement with a vendor.

There is no minimum required initial deposit or replenishment amount. Initial and additional payments into the account may be made by cashier's check, money order, credit card, debit card, electronic checking or Western Union. Transaction fees will apply for credit card and check by phone transactions. All payments will be subject to applicable taxes.
