TARIFF FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially, however, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

SECTION 3 - DESCRIPTION OF SERVICE AND MAXIMUM RATES**3.1 General**

VAC provides automated calling services for use by Inmates and other incarcerated persons in prisons, jails or other Correctional Institutions for communications originating and terminating within the State of Arizona. The Company's services are available twenty-four hours per day, seven days a week. Intrastate service is offered in conjunction with interstate service. Inmate access to the Company's services may be restricted by the administration of the Institution served.

Institutional Automated Collect Operator Service allows inmates to place calls to terminating locations anywhere within in the state. An automated system prompts the caller and the called party through user - friendly instructions. The called party must accept responsibility for payment of the charges by pressing the designated digit for acceptance. If a call is not accepted within five (5) seconds of the automated voice recording prompt, the automated recording is replayed a second time. If an acceptance digit is not received five (5) seconds after the second recording is completed, the call is terminated by the Company's system.

Customers are charged individually for each call placed through the Company's network. Charges may vary by service offering, mileage band, class of call, time of day, day of week and/or call duration. Customers are billed based on their use of the Company's services and network. No installation charges apply.

3.2 Timing of Calls

Billing for calls placed over the Company network is based in part on the duration of the call as follows, unless otherwise specified in this tariff:

3.2.1 Timing of each call begins when the called station is answered (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.

3.2.2 Chargeable time for calls ends when one of the parties disconnects from the call.

3.2.3 Unless otherwise specified in this tariff, the minimum initial period for billing purposes is one (1) minute.

3.2.4 Unless otherwise specified in this tariff, billing for usage after the initial period is in full one (1) minute increments.

3.2.5 The Company will not knowingly bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, the Company will reasonably issue credit for the call.

3.4 Calculation of Distance

Usage charges for mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

The distance between the Wire Center of the Customer's equipment and that of the destination point is calculated by using the "V" and "H" coordinates found in BellCore's V&H Tape and NECA FCC Tariff No. 4.

- Step 1:** Obtain the "V" and "H" coordinates for the serving wire center of the Customer's switch and the destination point.
- Step 2:** Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the Difference between the "H" coordinates.
- Step 3:** Square the differences obtained in Step 2.
- Step 4:** Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5:** Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6:** Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

SECTION 3 - DESCRIPTION OF SERVICE AND MAXIMUM RATES, (CONT'D.)**3.5 Institutional Automated Operator Assisted Calling**

Institutional operator assisted service allows inmates to place collect calls through an automated call processing system. The call processing system prompts the inmate and the called party such that the call is completed without live operator assistance. Calls are placed on a collect-only basis to the called party.

A number of special blocking and screening capabilities are available with institutional operator services provided by the Company. These capabilities allow Institutions to control Inmate access to telecommunications services, reduce fraudulent use of the Company's services, and eliminate harassing calls to persons outside the institution.

For services provided to inmates of institutions, the following special conditions apply:

1. Calls to "900", "976" or other pay-per-call services are blocked by the Company.
2. At the request of the institution, the Company may block inmate access to toll-free numbers (e.g., 800, 888) and dialing sequences used to access other carriers or operator service providers (e.g., 950-XXXX, 10XXXX).
3. At the request of the Institution, the Company may block inmate access to "911", "411", or local operators reached through "0-" dialing.
4. At the request of the Institution, the Company may block inmate access to specific telephone numbers.
5. Availability of the Company's services may be restricted by the institution to certain hours and/or days of the week.
6. At the request of the institution, no notices or signage concerning the Company's services will be posted with its instruments. Information concerning the Company's services is provided to the administration of each institution where the Company's services are offered. Inmates may obtain information regarding rates and charges by requesting such information from the institution's administration.
7. At the request of the institution, the Company may impose time limits on local and long distance calls placed using its services.
8. At the request of the institution, equipment may be provided which permits monitoring of inmate calls by legally authorized government officials.

SECTION 3 - DESCRIPTION OF SERVICE AND MAXIMUM RATES, (CONT'D.)

3.6 VAC Inmate Calling Service

This specialized calling service is available when the correctional facility contracts for VAC Inmate Calling Service on behalf of the inmates. Special restrictions and limitations may apply to calls made by inmates, including restriction to collect-calls only. InterLATA, intraLATA and local calling are available, as specified by the correctional facility subscriber.

3.6.1 Collect Call Assurance Program

The Company reserves the right to collect an advance payment equal to two (2) months of estimated collect calling service. If a calling history has not been established, the advance payment will be at least \$100.00, but will not exceed \$1,000.00. Payment must be made in U.S. dollars in the form of a cashier's check or money order.

The Company may limit charges to Customers who routinely accept collect calls from end users at correctional facilities at the advance payment level. During any billing cycle in which the customer is within 10% of the limit (the advance payment amount), the Company will offer the customer the choice of refusing service upon reaching the limit or increasing the advance payment. This allows the Company's collect customers to control the amount spent on collect calls from inmates while allowing the Company to offer service to customers whose credit worthiness would otherwise preclude continued service.

3.6.2 COD Collect

The Company offers COD Collect to inmates and to customers who accept inmate calls from certain correctional facilities served by the Company. COD Collect allows the inmate or collect call customer to establish a commissary account at the correctional facility for payment of call charges to the Company. The inmate or the collect call customer establishes the amount of the commissary account. The Company submits call charges to the administrator of the commissary account. The administrator is responsible for remitting payment to the Company according to the terms of the contract with the correctional facility. Where state law requires, the availability of a commissary account may be limited to collect call customers only. Commissary accounts are only available at those institutions served by the Company that have made the appropriate contractual and operational arrangements for such service. Calls billed to a commissary account are not billed on the customer's local telephone bill. Any balance remaining in the Commissary account at the time of an inmate's departure from the correctional facility will be distributed according to the terms of the contract with the correctional facility.

Commissary accounts may, at the Company's election, be offered for prepaid direct dialed calling services, at those institutions served by the Company which have made the appropriate contractual and operational arrangements for such services.

SECTION 3 - DESCRIPTION OF SERVICE AND MAXIMUM RATES, (CONT'D.)

3.7 General

Each customer is charged individually for each call placed through the Company.

The charges for the Company's services may be determined by:

- Distance between stations,
- Time of day and day of week,
- Duration of the call,
- Class of call, and
- Jurisdictional nature of the call (intraLATA or interLATA).

Customers are billed based on their use of the Company's service. No installation charges or fixed monthly recurring charges apply.

3.7.1 V-PIN

This charge may apply to automated calls placed by inmates in correctional facilities when such calls are provided through VAC's own processing equipment. V-PIN provides validation of inmate's personal identification number, PINs, through voice verification technology for purposes of improved security and reduced potential for fraud, other illegal activities, and consumer harassment by inmates. Where installation of V-PIN is requested by the correctional facilities, a per call service charge of \$0.25 applies. This is in addition to all applicable message charges, operator assisted service charges, and other miscellaneous service charges and fees.

3.8 Advance Pay Accounts

In those areas where the Company does not have a direct billing agreement with the existing local exchange carrier, or upon a Customer's request, the Company will set up a Advance Pay Account with the Called Party (Customer) for payment of collect calls placed from institutions served by Global Tel*Link. Funds in the Customer's Advance Pay account may only be used for payment of collect calls placed by inmates to telephone numbers specified by the Customer. Establishment and maintenance of an Advance Pay Account is required to complete collect calls to Customers served by local exchange carriers with which the Company does not have an existing direct billing and collection agreement.

The minimum amount required to set up the Advance Pay Account is \$25.00. Upon request, and after the required minimum payment is received, the Company will provide the Customer with a personal identification number (PIN) and a toll-free number to call in order to set up the account information, including the permissible numbers that the inmate may call.

SECTION 3 - DESCRIPTION OF SERVICE AND MAXIMUM RATES, (CONT'D.)

3.8 Advance Pay Accounts

Additional payments will be accepted with a \$50.00 payment maximum. Initial and additional payments into the account may be made by cash, check, credit card or Western Union. Transaction fees will apply for credit card and check by phone transactions. All payments will be subject to applicable taxes.

When an inmate places a call, the Customer is informed of both the caller's identity and the account balance prior to accepting the call. Customers may also contact the Company's toll-free customer service number for account balance information at any time.

If the Advance Pay Account balance becomes depleted, calls placed to the numbers specified by the Customer will be blocked until the Advance Pay Account is replenished.

SECTION 3 - DESCRIPTION OF SERVICE AND MAXIMUM RATES, (CONT'D.)**3.9 Institutional Prepaid Operator Assisted Calling****3.9.1 Prepaid Debit Accounts**

With a Prepaid Debit Account, each inmate has the option to transfer funds from his/her personal account to his/her telephone account. This is accomplished by facility personnel or through a direct interface between the commissary system and/or booking account and the inmate phone system. This account is associated with the inmate's Personal Identification Number (PIN.) When the inmate places a call, he/she has the option of calling collect or prepaid/debit. Once debit is selected, the inmate enters the PIN and called telephone number. All deposits to the account are paid to and handled by the entity managing the account, e.g., JMS, facility, commissary, etc. The Company receives payment from the Institution; it does not engage in direct monetary transactions with the inmate.

The Company's system automatically informs the caller of the Available Usage Balance remaining in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number. Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses.

Payment for Prepaid Institutional Calling Services and any Available Usage in the Prepaid Debit Account is refundable upon request. after release of the inmate from the Confinement Institution. The Available Usage Balance expires three months from the date of the last activity on the Prepaid account. No refunds of unused balances will be issued after the expiration date.
