ORIGINAL

RE: Innovations and Technological Developments, Docket No. E-00000J-13-0375

Dear Chairman Stump, Commissioners, Stakeholders and Interested Parties:

The purpose of this letter is to correct and update my February 26, 2014 letter concerning the dates and topics to be covered in our future workshops. First, the May 28, 2014 Substantive Workshop's agenda is planned to address energy efficiency, demand response and microgrids (Items 2 and 6 listed in my December 5, 2013 letter). The July 28, 2014 Substantive Workshop's agenda is planned to address metering technology, transmission and distribution automation (Items 4 and 5 listed in my December 5, 2013 letter).

Also, a date has been determined for the June Responsive Workshop related to energy efficiency, demand response and microgrids. It will take place on June 25, 2014. All workshops will be in Hearing Room #1 at the Commission.

Sincerely,

Robert L. Burns
