#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
18	For end use customer billing (dual billing situation), ACC Rules are not specific about what the utility and ESPs are obligated to show on their bills.  ESP	02/02/00	Billing			02/02/00 In many markets (CA specifically) begin and end meter reads need not be displayed on a bill. In Arizona market, utilities are required to show specific pieces of information but it's unclear if ESPs are required to follow same rules. This could apply to all revenue cycle services.  02/24/00 (ACC - Bill Rigsby) reported on ACC Rules, refer to sections R14-2-210B-2 and R14-2-1612. Verbiage states that ALL bills must contain the data elements referred to in these sections. UDCs would be required to show a generation line item on their bill (dual billing) showing a zero amount due. Additionally, ESP would be required to show a CTC charge on their portion of the bill with a zero amount due.	1	Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
						<p><u>Action:</u> ESPs/UDCs create a proposal for short term solution which may require filing for waiver to the Rules as a short term solution. All parties to come up with possible long-term changes to the Rules.</p> <p>Issue for MRSPs: Begin and end reads must be printed on bill according to the Rules. So, these must be passed to the billing parties.</p> <p>03/08/00 Should a Rule change be suggested as a short-term solution. It is possible to put this in a combined waiver of issues that need to be changed in the Rules. A long term solution would be actually to change the verbiage.</p> <p><u>Action:</u> ESPs and UDCs should come prepared with their company's position in regards to filing waivers. Group will come up with proposal about how this issue should be resolved.</p> <p>03/14/00 Decision to have a separate waiver filed for this issue (separate from #28,36, &amp; 56).</p> <p>03/22/00 Proposal: Bill party needs to itemize the bill components to allow customer to break down/re-calculate the bill.</p> <p>10/11/00 – October 4, 2000 Rule tweaking package approved – 1612 changed but not 210 B2. 210 B2 DOES need to be chngd. Shirley will let Barbara Keene know and wait for direction from Staff on how to handle the existing waiver.</p> <p>2/21/01 Barbara Keene had advised the group at a previous</p>		

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
						meeting that the PSWG might need to submit a new waiver with documentation to support the waiver.		
25	What specific VEE rules should utilities use on an ongoing basis to verify and bill off of incoming MRSP reads. (PSWG – Billing)	01/26/00	Meter-VEE		See issue 101	<p>01/26/00 Since MRSPs use different algorithms, it's difficult for utilities to determine if MRSPs are performing VEE on an ongoing basis. If utilities use their own VEE systems to verify reads it may cause invalid rejections.</p> <p>02/01/00 What is the utilities responsibility to audit MRSPs? Rules state this certification must take place yearly.</p> <p>04/27/00 A sub/subgroup was formed to review existing VEE rules, develop objectives, changes and proposals (if needed), develop performance measures and monitoring criteria. TEP - Tony Gilloly, APSES, New West Energy - Janie Mollon, C3 Comm, CSC, APS, SRP - Greg Carrel, a representative from the Co-ops (possibly Barry Scott), and possibly First Point. Renee Castillo volunteered to chair this sub/subgroup and will set up a meeting with these participants.</p> <p>06/22/00 Reassigned from Policy to Metering subcommittee 10/11/00 – This has previously been assigned to VEE 2/21/01 – This issue will be addressed in the MRSP performance monitoring task team with issue 101.</p>		Open
30	Do we need to prioritize transactions by importance due to financial considerations and customer service (for problem resolution and	01/27/00	Remittance	02/08/00		<p>Example, SRP requires acknowledgement both incoming and outgoing within 24 hours.</p> <p>All subcommittees need to define transaction cycle time.</p>		Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
	cycle time of EDI 824)?							
31	Is there a need to standardize dual path or single path when handling the 820? Do we provide a remittance advice directly to ESP and payment directly to bank (dual path)? OR do both documents go directly to bank (single path)?	01/27/00	Remittance	02/08/00		<p>Payments go to bank and details go to provider. Since most banks are currently using VANS, sending both transactions may be costly to sending parties.</p> <p>2/21/01 –TEP &amp; SRP use a dual path , APS uses a single path. This issue will be discussed more if the future.</p>		Open
38	Will UDCs allow ESPs to interrogate meters on non-DA customers for load research purposes/ billing option purposes? (PSWG – Metering)	01/27/00	Policy			<p>(New West Energy - Janie) will clarify at 03/13/00 meeting.</p> <p>Details on Issue: Customer is not DA and wants load research data for informational purposes.</p> <p>Example: ESP may be taking multiple customer accounts but not all of them. ESP would like a secondary password to review this information so they can provide information of all sites (even those not going DA) to customer. If there is no IDR meter at site, customer would need to initiate an IDR meter from UDC and pay associated costs.</p>	3	Open
41	Who is responsible for validating that a meter can be read after a MSP has set a new meter? "Day of Install" (Day of Removal, issue 103)	01/27/00	Meter-VEE			<p>In CA, it's a requirement from CPUC (Rule 22), the ESP is responsible for ensuring newly installed meter can be read prior to 1<sup>st</sup> billing by MRSP or face penalties.</p> <p>02/03/00 (First Point) This is usually done at the meter install time.</p>	3	Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
						<p>04/27/00 To be addressed in the VEE sub/subgroup.</p> <p>2/7/01 – the group clarified that this issue involves both the MSP and the MRSP</p> <p>3/21/01 The group agreed that a separate Task Team is required to develop the Day of Install and Day of Removal Process covering both MSP and MRSP responsibility. The Task Team will make a recommendation on where the process will reside (i.e. VEE doc, Metering Handbook etc).</p> <p>The group agreed to allow the MRSP or MSP Performance Task Team (whoever finishes first) to complete the Performance Monitoring document until they are ready to look at Day of Install/Day of Removal. At that time, the MRSP Performance Task Team will be put on hold while the Day of Install/Day of Removal task Team is established to complete the process. Once this process is complete, the MRSP Performance Task Team will regroup to develop the Performance monitoring criteria around Day of Install/Day of Removal. The MSP Performance Monitoring Task Team will also incorporate into their Performance Monitoring into their document.</p>		
42	Will we require an 824 on all transactions (accepted or take exception to a data element). Do we only want to get an 824 when there's a problem with data? (PSWG - Policy)	02/01/00	Remittance					Open
47	Standardization of Billing Options (ESP and UDC consolidated billing as well as Dual billing) from all UDCs should be implemented im-	01/25/00	Policy			A working group of market participants should study the intent of Commission Rules and make a determination that applies to all UDCs. Terms and Conditions for credit, payments and partial payments, and other billing processes should be standardized for all UDCs. During the direct access rulemaking process, an ear-	2	Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
	mediately to provide customer choice. Include related changes or impacts to other processes or procedures. (APSES)					<p>lier working group discussed whether billing options should be discretionary, but no consistent position was reached. Market participants need to clarify the procedures for consistency among UDCs.</p> <p>In order to develop a viable direct access market, the limitations on customer choice caused by differences in billing procedures among UDCs will be removed. Customer confusion and criticism will be reduced, and ESPs will have flexibility to meet individual customer needs.</p>		
49	<p>Develop interim business processes that can be implemented manually, and plan mapping for both out-bound (UDC to ESP) and in-bound (ESP to UDC) DASRs for the following communications. Business processes should be implemented immediately by each UDC with as much consistency as possible, and EDI mapping can be phased in.</p> <p>Customer Moving: - Notification of direct access customer moving to new address within the same distribution company territory without having to return to</p>	01/25/00	DASR			<p>Customers need the flexibility to contact either their ESP or UDC to implement a request, as provided by proposed business processes. The customer's choice and other information can be communicated by e-mail or fax until out-bound/ in-bound DASRs are functional. Customers will not be burdened with having to make numerous phone calls to UDCs and ESPs to implement their service choice. To develop a viable direct access market, the burdens and costs caused by unnecessary switches to/from bundled service will be removed. "Customer choice" will become more of a reality.</p>		Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
	bundled service. (APSES)							
50	New Customer - Same Facility: - A new customer takes over an existing direct access facility, keeps same ESP and meter without returning to bundled service. (APSES)	01/25/00	DASR			see Issue 49, Description, paragraph 1		Open
51	Account Update – Notification of changed account information. UC and PD DASRs appear to be both in/out-bound in the Arizona DASR Handbook (APSES)	01/25/00	DASR			see Issue 49, Description, paragraph 1		Open
52	UDCs and market participants need a clearly-defined communication process for promptly communicating and resolving problems with data, meters, or bills among ESPs, MSPs, MRSPs, and UDCs (APSES)	01/25/00	Policy		see Issue 34	<p>Process should be initiated by any participant to establish communication to solve problem within a defined time frame, if possible, and, if necessary, to maintain communication until root cause analysis is complete. Standardized process should be implemented immediately by each participant and automated by all parties as soon as possible.</p> <p>An example of the California "MADEN" process is attached to the original change control document.</p> <p>Process will reduce meter and data errors that cause billing errors and delays in billing and receiving revenue. It will help provide customer satisfaction by reducing billing questions and complaints to both UDCs and ESPs.</p>	3	Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
55	UDC fees for Direct Access services (CISR, DASR, metering, meter reading, billing, settlement, etc.) are too high and not consistent between UDCs. (APSES)	01/25/00	Policy			<p>The 3 largest UDCs have proposed varying fees for Direct Access services, such as: meter information, submitting Direct Access Service Requests, meter installations or removals, meter reading services, consolidated and/or dual billing, and settlement billing. These fees are, in some cases, excessively high and do not reflect the true marginal cost of providing these services. Many fees are required by one UDC, but not at all by other UDCs. Even when required by all UDCs for same service, fees are not consistent and vary quite substantially. All the various fees provide an additional barrier to development of a competitive market in Arizona.</p> <p>Proposal To develop a viable market in Arizona, a group consisting of market participants should be tasked with determining which fees should be mandatory, which fees should be discretionary, and which fees should be deferred until the market has developed. This group should also recommend which costs could be recovered as part of base rates and which should be recovered in service fees. Finally, the group should recommend a consistent, cost-based methodology for calculating the costs to be recovered by the UDCs.</p>	2	Open
59	Need clarification on estimating rules, specifically section 210-A-5C	02/08/00	Policy			<p>Confusion about load profiled customer or customers needing load data. Does this have anything to do with real time pricing?</p> <p>10/12/00 210 A5c The group believe this issue is for 210 A5 c only. Need to determine if it should be a part of our 210 ...waiver  <b>Action Item:</b> Shirley will seek clarification with Staff                      10/26/00 210 A5c - per Barbara keene this is a DA cust that isn't load profiled</p>	3	Open

						11/01/00 Assigned to Policy		
60	According to the Rules, a third party can be back billed up to 12 months. What will the process be for back-billing third parties? (R14-21-E3)	02/08/00	Billing			*Refer to Issue 70	2	Open
61	Who is responsible for tracking the performance of MSP and MRSP's? What is the performance criteria What is process for communicating this information? (PSWG – Billing)	02/08/00	Metering		see Issue 65	<p>06/22/00 Discussion also focused on possible timelines and CUBR has performance standards. Reassigned from Policy to Metering.</p> <p>0720/00 Issue should refer only to MSPs. (TEP) Position on MSP Performance Standards was provided.</p> <p>2/7/01 – the group confirmed that this issue deals with developing performance monitoring /testing criteria for MSPs</p> <p>2/07/01 – established a task team to develop – John Wallace – Chair due date 4-01</p> <p>3/7/01 The group reviewed and made recommendation to the status report. Additional task team meetings are required.</p> <p>3/21/01 John Wallace (GCSECA) reported that the next Task Team meeting is set for April 13<sup>th</sup> at New West Energy.</p> <p>04/04/01 John Wallace (GCSECA) reported that the next Task Team meeting is now scheduled for April 17<sup>th</sup> (the 13<sup>th</sup> is a holiday) at Grand Canyon State Electric Cooperative building.</p>	3	Open
71	If after receiving an RQ DASR and UDC is planning to disconnect for non-	02/24/00	Metering			This particular issue focuses more on how the metering side is handled when this type of issue arises. How to stop the meter exchange process.	3	Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
	payment or turn off a customer prior to switch, what is process to notify ESP that customer will be disconnected. (PSWG – Billing)					04/27/00 Will be reviewed when additional business processes are reviewed.		
75	On incoming DASR – only kWh meter number is required. State DASR handbook does not accommodate a kWh meter and Kvar meters, or other metering combinations. (PSWG – metering)	03/16/00	DASR					Open
76	On DASR – forecasted meter owner is a required field. Is this appropriate? Should this be taken off of the RQ DASR? (PSWG -Metering)	03/16/00	DASR			In step 3 of Metering Business processes, the pending meter owner is also required. Meter owner may change from the time the DASR is submitted to the time the meter is exchanged.		Open
78	There is no language in Rules preventing MSP from contracting directly with customers, how should this issue be addressed?	03/28/00	Policy	08/07/00		System implications – Will MSP have to submit DASR's?  Rule change suggestion: Change the definition in Section R14-2-1601 "DASR means a form that contains all necessary billing and metering information to allow customers to switch electric service providers. This form must be submitted to the Utility Distribution Company <i>by the customer's Electric Service Provider load serving entity</i> ."  This may force UDCs to create contracts for MSPs. ESP would	1	Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
						<p>send DASR but they would not be liable for MSP. Contract would allow UDC to hold MSP liable.</p> <p><u>Action:</u> All participants to assess impacts of MSP contracting directly with customer. Be prepared to discuss your company's position and provide solutions to this issue at the next meeting.</p> <p>05/09/00 (TEP) agrees there is no language in rules that precludes customer contracting directly with MSP. TEP would like to see language added to rules that would not allow a customer to contract directly with an MSP. (APS) identified contractual and system impacts if customer contracts directly with MSP. Systems and processes were developed to transmit DASR directly with ESP only. (APSES) leans towards customer not subcontracting directly with MSP. MSPs should work through ESP so customer doesn't end up with a metering system ESP or MRSP cannot read.</p> <p>06/22/00 To be reviewed by ACC staff. Is this within the purview of PSWG? <u>Action:</u> (due 06/30) Participants to submit position papers per 06/22/00 minutes.</p> <p>07/04/00 (Marv Buck) provided an overview of how other states are handling. Participants (NWE, APS, TEP, Phaser, SRP, APSES) presented their positions in a consolidated document to the PSWG.</p> <p>07/20/00 Steve Olea presented ACC staff position: Electric Competition rules allow MSPs to contract directly with customers; operating procedures need to be developed. Issue will include only MSPs at this time, but MRSPs will be kept on radar screen.</p>		

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
						<u>Action</u> : Participants may submit issue sheets, including 1) impact of issue on business processes and 2) any past practices in markets that provide insight to edryer@tucsonelectric.com by 08/07/00.		
80	What are the security and encryption standards that will be used in transmitting data (Barry Scott).	05/09/00	Policy			06/22/00 Priority set at 1.	1	Open
81	What information is provided on a CISR from each UDC and is that information consistent (Jim Woner –APSES)	05/09/00	DASR			06/22/00 Priority set at 3.	3	Open
83	When customer switches from DA back to SO or ESP to ESP and the MRSP has not provided meter read data (or estimated reads) for previous months, what should the UDC/ESP do to retrieve missing data? How can the final bill get trued-up? Should the UDC/ESP be allowed to estimate the final bill?	06/22/00	Metering		see Issue 65, 59, 60, 70, 83, 84	06/22/00 <u>Action</u> : Each entity to provide their solutions on how to handle this issue in July subcommittee meeting.  07/20/00 (APS) discussed MRSP Performance Standards at the PSWG mtg. (TEP) Position on MRSP Performance Standards was provided.  08/16/00 Billing Subgroup is currently addressing.	1	Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
84	Is the bill that is issued when a customer switches considered a "final" bill?	07/19/00	Billing			<p>9/28/00 Staff confirmed that the when a customer switches providers or disconnect service, it is a "Final Bill".</p> <p>10/12/00 The group agreed that R14-2-210 A5b should be addressed/modified with the next Rule Tweaking Package - Waiver not needed at this time. Will raise at Policy Group Nov 1</p> <p>10/26/00 this issue covers all of section 5 not just 5b, will raise at Nov 1 Policy mtng</p> <p>2/21/01 – the group agreed that this is resolved because Staff confirmed at a prior meeting that the bill is considered a Final Bill when the customer switches providers. Staff confirmed that by New West Energy's definition of "Customer", that one service point closure would not be a Final Bill. Barbara Keene disagreed and will follow up with Staff and report at the March 7, 2001 meeting before status is updated.</p> <p>3/7/01 – Staff needs additional time – will report at the 3/21/01 meeting</p> <p>3/21/01 - Barbara Keene communicated that Staff is still working on the issue. Staff is looking for feedback from the Participants on how their positions in an effort to help direct Staff on this decision.</p> <p>The group confirmed that there are 2 issues that need to be addressed...</p> <ol style="list-style-type: none"> <li>1. What is the definition of a Final Bill and Customer</li> <li>2. Rules prohibiting estimation of Direct Access Bills and Final Bills – Need flexibility for situations where it is impossible to obtain reads (i.e. damaged meter etc.).</li> </ol> <p>Barbara will report back at the 4-4-01 meeting.</p>		Open

	tlement,					CA went to 10-min intervals on 8-1-00 and are doing in line interpolation.		
99	The use of Electronic Signatures for DA transactions (House Bill 2069)	11/15/00	Policy			11/15/00 The metering group requires a signature for the exch of the EPA form. Since metering is not the only group that this may apply to, it is passed to Policy and will be raised on 12-4-00.  2/21/01 – The group added that any request for data would also require a signature.		Open
100	What process can be developed to facilitate a customer installing an IDR meter and equipment before DA that allows a customer to move to DA and back with the same equipment.	12/4/00	Policy			12/4/00 Action Item: Participants to draft position papers identifying options and send to Evelyn Dryer by January 24, 2001. Evelyn will consolidate position papers and send out prior to the February 7, 2001 meeting.  3/7/01 – <b>CUC</b> LeeAnn Torkelson (R.W. Beck/Citizens) provided a handout (attached) and reported that CUC will be willing to purchase DA IDR meters when a customer is returning to Standard Offer. The only requirement is the meter must meet their meter standards. Currently, CUC has a load requirement for Commercial Standard Offer customers where an IDR meter is required. Residential Standard Offer customers are not eligible for IDR metering. <b>Action Item:</b> LeeAnn will report the actual load requirement for Standard Offer customers at the March 21 <sup>st</sup> meeting. Also, if CUC would be willing to sell the CUC Standard Offer IDR meters to the customer when the customer has opted for Direct Access service.  <b>SRP</b> provided a handout and reported that SRP will install an IDR meter at a customer's request while they are standard offer. Fees relative to this request were unknown and will be clarified at	1	Open

						<p>the March 21<sup>st</sup> meeting. SRP will not transfer equipment ownership or sell meter equipment. If SRP remains the MSP for customers opting for Direct Access service, the SRP IDR meter may stay in place while the customer is a DA customer and can be used for Standard Offer services if the customer returns. If the customer opting for DA services selects a third party MSP other than SRP, the SRP IDR meter must be removed and replaced with a customer, ESP or MSP owned IDR meter.</p> <p><b>Action Item:</b> SRP to confirm fees associated with the installation of an IDR meter for a Standard Offer customer at the 3-21-01 mtng.</p> <p><b>TEP and Cooperatives</b> were not ready to report. Will report at the March 21, 2001 meeting.</p> <p><b>APS</b> presented their current process for transferring ownership of the meter to allow a customer to switch between standard offer and DA with the same meter at a previous meeting</p> <p>3/21/01  <b>Evelyn Dryer (TEP) reported on TEP' proposal (attached). TEP will agree to transfer ownership of a meter to the customer/service provider when going DA for average book value for the class and IDR type of the meter being transferred. And allow the meter to be transferred back to TEP when the customer returns to Standard Offer, TEP will pay the utility's average net book value adjusted for the passage of time for the class of meter being transferred plus administrative and service establishment charges. The depreciation will be rounded to the next highest year in the determination of the net book value at which the utility/UDC repurchases the meter from the customer/service provider.</b></p> <p><b>John Wallace (GCECA) reported on the Cooperative proposal (attached). The Cooperatives reported that they are not able to accommodate issue 100 for several reasons:</b></p> <ol style="list-style-type: none"> <li><b>1. With the exception to Navopache, the Cooperative territories are not open</b></li> <li><b>2. Significantly higher costs of purchasing, interrogating and maintaining IDR meters that are not being recovered</b></li> </ol>		

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
						<p>through current rates</p> <p>3. <b>Would be required to hire and train additional meter personnel to program, interrogate and maintain IDR meters</b></p> <p>4. <b>Currently, no way to determine if it would be economically feasible to offer IDR metering to Standard Offer Customers.</b></p> <p><b>Exceptions: Some Cooperatives (i.e. Trico) may be able to accommodate Issue 100 in the future since they are beginning to install IDR meters.</b></p> <p><b>LeeAnn Torkleson (R.W. Beck/CUC) confirmed that CUC will not be able to provide IDR meters for Standard Offer Customers regardless of load. At such time that CUC offers IDR meters to Standard Offer customers, they will look at proposals to accommodate Issue 100.</b></p> <p>SRP  <b>SRP confirmed that they have a one time only fee for Standard Offer customer to request an IDR meter to be installed.</b></p> <p>Janie Mollon expressed a concern of how this will be documented to ensure that the UDC will not change their minds at a later date. The group agreed that this issue is closed with the exception of implementation. The group will wait until the draft-metering handbook is out to determine how Janie’s concerns will be addressed.</p> <p>04/04/01                      LeeAnn (RW BECK/CITIZENS) reported on an action item from the March 21 meeting -- Citizens does not have any IDR meters listed on their accepted meter list at this time that they would be willing to purchase.</p> <p>TEP will confirm if they will waive a meter test charge if the meter had been tested within the time period specified in the rules for meter testing</p>

						<p>3/21/01 The group agreed that a separate Task Team is required to develop the Day of Install and Day of Removal Process covering both MSP and MRSP responsibility. The Task Team will make a recommendation on where the process will reside (i.e. VEE doc, Metering Handbook etc).</p> <p>The group agreed to allow the MRSP or MSP Performance Task Team (whoever finishes first) to complete the Performance Monitoring document until they are ready to look at Day of Install/Day of Removal. At that time, the MRSP Performance Task Team will be put on hold while the Day of Install/Day of Removal task Team is established to complete the process. Once this process is complete, the MRSP Performance Task Team will regroup to develop the Performance monitoring criteria around Day of Install/Day of Removal. The MSP Performance Monitoring Task Team will also incorporate into their Performance Monitoring into their document.</p>		
104	Develop VEE rules for Non IDR							Open
105	MSP/MRSPs should be allowed to subcontract for services to qualified personnel, without having to make them employees of the company, as long as the certificated MSP/MRSP is still responsible for the work they perform.		Policy			2/07/01 Copied from issue 56 to separate the two issues.		Open
106	Develop a document showing all agreed upon billing business rules		Task Team		See issue 96			Open
107	Develop a document showing all agreed upon Metering business rules					2/07/01 Task team was established, chaired by Stacy Aguayo due date 3/07/01		Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
						<p>2/21/01 – The group reviewed a proposed outline for the Metering Handbook</p> <p>3/7/01 The group agreed that the scope of this task has increased substantially. At this time, the Task Team will focus on filling in the sections that pertain only to issues the PSWG has approved and address the other sections later. With this specific focus, the Task Team is aiming to finalize their work by the April 4<sup>th</sup> meeting.</p> <p>3/21/01 Stacy Aguayo (APS) reported that the team is on task to have a draft of the AZ Metering Handbook ready for the April 4th meeting.</p> <p>04/04/01 The Overview: Needs more information and detail regarding document purpose and how to read the document. Comments appreciated. Ch 1 and 2: This general information was never discussed in PSWG or other AZ meetings. This is a compilation from other utilities (out of state) as well as in-state processes. Comments appreciated. It was suggested moving the metering forms document approved by PSWG and currently posted on the ACC website into the metering handbook so ESP/MSP have a single place to look.</p> <p><b>Action Item:</b> Participants need to review and redline the document. Send comments to Stacy Aguayo by April 18<sup>th</sup>. A draft incorporating all the comments will be presented by May 2<sup>nd</sup>, 2001 meeting.</p>		
108	Inconsistency involving transmission and ancillary services as non Competitive in definitions (1601 29) and C - Competitive in Billing elements(1612 O) and tariffs					<p>2/21/01 – Staff is requesting the PSWG develop a recommendation on the issue.</p> <p>3/7/01 After much discussion the group agreed that although transmission is listed as a Competitive charge the definitions state that it is non competitive, and the recommendation is not to</p>		Resv

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
	(1606 C2) (ACC Staff)					<p>move transmission to Non Competitive. The intent is that a customer can look at their unbundled bill and see what and see what parts other entities may provide. The group is exploring other <u>future</u> options like changing the titles of Non Competitive and Competitive to something else.</p> <p>3/21/01 Barbara Keene communicated that her report back to the Commission on this issue is due April 10<sup>th</sup>.</p> <p>With the exception of APS, all participants agreed to removing "Competitive" and Non Competitive from the Billing Element section (R-14-2-1612 O )</p> <p>APS will communicate directly to Barbara Keene their position on this issue by March 26, 2001.</p> <p>The group agreed that Issue 108 is closed.</p>		
109	New CC&N application needs to be reviewed to verify there are no inconsistencies between what the PSWG has approved. (ACC Staff)					<p>2/21/01 – ACC Staff raised the issue for the group to address  <b>Action Item:</b> Ken Grove volunteered to review the MRSP CC&amp;N requirements and report back at the March 7, 2001 meeting.  <b>Action Item:</b> Janet Henry volunteered to review the MSP CC&amp;N requirements and report back at the March 7, 2001 meeting.</p> <p>3/7/01 – Jim Wontor reported on suggestion to include items mentioned in the CC&amp;N doc in the approved VEE standards and the performance monitoring doc so the MRSPs have one document that identifies what the expectations are to operate in AZ. The group agreed and passed suggestion to Task Team.</p> <p>Janet will report on MSP CC&amp;N doc at 3/21/01 meeting.                      3/21/01 Janet Henry (AXON Field Solutions) reported no inconsistencies in the MSP CC&amp;N requirements and suggested the MSP Performance Task Team look at incorporating the requirements into the Performance document.</p> <p>The group agreed to assign the review of the document regard-</p>		Open

						ing certifying workers to classification and how this is going to be accomplished. Janet will highlight the document areas that need to be considered in this review.		
110	What is the process to ensure that all meter data is in before the account goes back to bundled service?					2/21/01 (From Metering Business Rule doc.) How does UDC verify with the ESP that all the data is complete? If data is incomplete how does UDC notify ESP? (data from a previous billing cycle not final bill data). <b>This is being referred to VEE as of 9/27/00</b> but left here to make sure it is covered and does not need to be part of the Bus Rule Doc.		Open
111	SRP raised the issue of changing the AZ 810 to show the read field as Conditional rather than Mandatory		Policy			3/7/01 – The majority of the group agreed to make the change. Gene Schlecta (SRP) will make the change and send it out for review and will be discussed at the March 21 <sup>st</sup> meeting.  3/21/01 The group agreed that this field is Conditional since a read is only required to be on the bill for Residential customers and not required for Commercial. SRP' has an issue with this since they do not show reads for interval metered customers regardless if it's a Commercial or Residential customer. Gene Slechta will take this back to SRP to re-look at the issue before the group agrees to approve changing the meter read field to Conditional from Mandatory.  04/04/01 Gene Slechta (SRP) reported that SRP' billing system does not have the capability of providing beginning and ending reads on the 810. SRP commented that the ESP can calculate the beginning and ending reads from the 867 billing data for residential IDR customers. The field will be populated if the UDC can provide the reads.  <b>Action Item:</b> All participants review the options and be prepared with response for May 2 <sup>nd</sup> .		Open

#	Issue	Date Identified	Sub-Committee	Date Needed	Date Resolved	Discussion	Priority	Status
						<p>Should this field be conditional or optional? Further discussion is needed at the May 2nd meeting. Discuss the options below:</p> <p>The three options discussed regarding the requirement for sending beginning and ending reads for Residential IDR customers:</p> <ol style="list-style-type: none"> <li>1. Let the state process drive the requirement</li> <li>2. Let the market drive the requirement (between ESP/MRSP)</li> <li>3. Obtain a waiver or have the commission change the rules requiring printing the beginning and end reads for Residential IDR customers</li> </ol> <p><b>Action item:</b> Gene and Shirley will review 810 documents for conditional field definitions and make recommendations as needed.</p>		
112	Develop a master list of all acceptable meters within each UDC territory		Policy			3/21/01 Raised by Navopache		Open
