TARIFF FORMAT

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14.
- C. **Paragraph Numbering Sequence** - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.1
- D. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

SECTION 5. INTRALATA/INTERLATA TOLL PRESUBSCRIPTION**5.1 General**

IntraLATA/InterLATA toll presubscription is a procedure whereby an end user may select and designate an IntraLATA and/or InterLATA Toll Provider ("ITP") to access IntraLATA and/or InterLATA toll calls in Arizona without dialing an access code. The end user may designate an ITP for IntraLATA toll, a different carrier for InterLATA toll, or the same carrier for both. This ITP is referred to as the end user preferred IntraLATA/InterLATA toll provider.

Selection of an ITP by an end user is subject to the terms and conditions in Section 5.2.

SECTION 5. INTRALATA/INTERLATA TOLL PRESUBSCRIPTION (Cont'd)**5.2 Presubscription Charge Application****5.2.1 Initial Free Presubscription Choice for Customers**

New end user customers (including an existing customer who orders an additional line) who subscribe to local service will be asked to select a primary ITP when they place an order for Company Exchange Service. If a customer cannot decide upon either an IntraLATA and/or an InterLATA toll carrier at the time, the customer will have thirty days following completion of the service request to make an IntraLATA and/or an InterLATA PIC choice without charge. In the interim, the customer will be assigned a "No-PIC" and will have to dial an access code to make IntraLATA and/or InterLATA toll calls. The free selection period available to new end users is the thirty day period following installation of service.

Initial free selections available to end users are:

1. Designating an ITP as their primary carrier, thereby requiring no access code to access that ITP's service. Other carriers are accessed by dialing 101-XXXX or other required codes.
2. Choosing no carrier as a primary carrier, thus requiring 101-XXXX code dialing to access all ITPs. This choice can be made by directly contacting the Company.

No ITP change order shall be generated by outbound telemarketing unless, and until, the order has first been conformed in accordance with the following procedures:

5.3.1.1 The ITP has obtained the customer's written authorization to submit the order that explains what occurs when a PIC is changed and confirms:

5.3.1.1.A The customer's billing name and address and each telephone number to be covered by the PIC change order;

5.3.1.1.B The decision to change the PIC to the ITP; and

5.3.1.1.C The customer's understanding of the PIC change fee; or

5.3.1.2 The ITP has obtained the customer's electronic authorization, placed from the telephone number(s) on which the PIC is to be changed, to submit the order that confirms the information described in 5.3.2.1 preceding to confirm the authorization; or

5.3.1.3 An appropriately qualified and independent third party operating in a location physically separate from the outbound telemarketing representative has obtained the customer's oral authorization to submit the PIC change order that confirms and includes appropriate verification date (e.g., the customer's date of birth or social security number).
