The minimum period of service is one month except as otherwise provided in this Tariff. The customer must pay the regular Tariff rate for the service they subscribe to for the minimum period of service. For facilities not taken over by the new customer, the original customer is responsible for the remaining payment for the minimum service period in accordance with the terms under which the service was originally furnished.

3.5 Payment for Service Rendered

3.5.1. Responsibility for All Charges

Any applicant for facilities or service may be required to sign an application form requesting the Company to furnish the facilities or service in accordance with the rates, charges, rules and regulations from time to time in force and effect. The customer is responsible for all local and toll calls originating from the customer's premises and for all calls charged to the customer's line where any person answering the customer's line agrees to accept such charge.

3.5.2. Advance Payments

3.5.2.A. At the time an application for service is made, an applicant may be required to pay an amount equal to at least one month's service and/or installation charges which may be applicable, in addition to such special construction and installation charges as are to be borne by the applicant. The amount of the advance payment is credited to the customer's account on the first bill rendered.

3.5.2.B. Federal, State or Municipal governmental agencies may not be required to make advance payments.

3.5.3. Credit Policy

3.5.3.A. Deposit and Guarantee Requirements

The Company may require a deposit or guarantee of payment from any customer or applicant who has not established good credit with that Company. Deposit or guarantee of payment requirements as prescribed by the Company must be based upon standards which bear a reasonable relationship to the assurance of payment. The Company may determine whether a customer has established good credit with that Company, except as herein restricted:

1. A customer, who within the last 12 months has not had service disconnected for nonpayment of a bill and has not been liable for disconnection of service for nonpayment of a bill, and the bill is not in dispute, shall be deemed to have established good credit.

3. The Company shall not use any credit reports other than those reflecting the purchase of Company services to determine the adequacy of a customer's credit history without the permission in writing of the customer. Any credit history so used shall be bailed to the customer in order to provide the customer an opportunity to review the data. Refusal of a customer to permit use of a credit rating or credit service other than that of a utility shall not affect the determination by the Company as to that customer's credit history.
4. When required, a customer may assure payment by submitting a deposit. A deposit shall not exceed an estimated two months' gross bill or existing two months' bill where applicable. All deposits shall be in addition to payment of an outstanding bill or a part of such bill as has been resolved to the satisfaction of the Company, except where such bill has been discharged in bankruptcy. 3.5.3.B. Guarantee of Payment

The Company may accept, in lieu of deposit, a contract signed by a guarantor satisfactory to the Company whereby payment of a specified sum, not exceeding the deposit requirement, is guaranteed. **3. GENERAL RULES AND REGULATIONS, CONT'D.****3.5 Payment for Service Rendered, Cont'd.****3.5.4. Payment of Charges**

Charges for facilities and service, other than usage charges, are due monthly in advance. All other charges are payable upon request of the Company. Bills are due on the due date shown on the bill and are payable at any business office of the Company, by U.S. Mail, or at any location designated by the Company. If objection is not received by the Company within three months after the bill is rendered, the items and charges appearing thereon shall be determined to be correct and binding upon the customer. A bill will not be deemed correct and binding upon the customer if the Company has records on the basis of which an objection may be considered, or if the customer has in his or her possession such utility records. If objection results in a refund to the customer, such refund will be with interest at the greater of the unadjusted customer deposit rate or the applicable late payment rate, if any, for the service classification under which the customer was billed. Interest will be paid from the date when the customer overpayment was made, adjusted for any changes in the deposit rate or late payment rate, compounded monthly, until the overpayment is refunded. Notwithstanding the foregoing, no interest will be paid by the Company on customer overpayments that are refunded within 30 days after the overpayment is received by the Company.

Where an objection to the bill involves a superseded service order, the items and charges appearing on the bill shall be deemed to be correct and binding upon the customer if objection is not received by the Company within two months after the bill is rendered.

3.5.6. Late Payment Charges

3.5.6.A. Customer bills for telephone service are due on the due date specified on the bill. A customer is in default unless payment is made on or before the due date specified on the bill. If payment is not received by the customer's next billing date, a late payment charge of 1.5% will be applied to all amounts previously billed under this Tariff, excluding one month's local service charge, but including arrears and unpaid late payment charges.

3.5.6.B. Late payment charges do not apply to those portions (and only those portions) of unpaid balances that are associated with disputed amounts. Undisputed amounts on the same bill are subject to late payment charges if unpaid and carried forward to the next bill.

3.5.6.C. Late payment charges do not apply to final accounts.

3.5.7. Customer Overpayments

The Company will provide interest on customer overpayments that are not refunded within 30 days of the date the Company receives the overpayment. An overpayment is considered to have occurred when payment in excess of the correct charges for service is made because of erroneous Company billing. The customer will be issued reimbursement for the overpayment, plus interest, or, if agreed to by the customer, credit for the amount will be provided on the next regular Company bill. The rate of interest shall be the greater of the customer deposit interest rate or the Company's applicable Late Payment Charge.

3. GENERAL RULES AND REGULATIONS, CONT'D.

3.11 Allowances for Interruptions in Service

Interruptions in service, which are not due to the negligence of, or non-compliance with the provisions of this Tariff by the Customer, or the operation or malfunction of the facilities, power, or equipment provided by the Customer, will be credited to the Customer as set forth below for the part of the service that the interruption affects. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Tariff.

3.11.1. Credit for Interruptions

3.11.1.A. An interruption period begins when the Customer reports a service, facility, or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility, or circuit is operative. If the Customer reports a service, facility, or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

3.11.1.B. For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

3.11.1.C. In the event a customer's service is interrupted otherwise than by negligence or willful act of the customer and it remains out of order for 24 hours after being reported to the Company, adjustments shall be made to the customer, based upon the pro rata part of the month's charge for the period of days and that portion of the service and facilities rendered useless or inoperative. The refund may be accomplished by a credit on a subsequent bill for telephone service. If in the case of such interruption, service is restored on or before the day after it is reported or found by the Company, no allowance will be made.

"Interruption" does not include and no allowance shall be given for service difficulties such as slow dial tone, circuits busy or other network and/or switching capacity shortages. Nor shall the interruption allowance apply where service is interrupted by the negligence or willful act of the subscriber or where the Company, pursuant to the terms of the Tariff, suspends or terminates service because of nonpayment of bills due to the Company, unlawful or improper use of the facilities or service, or any other reason covered by the Tariff. 4.4 Maintenance Visit Charge

An MVC, a/k/a Trouble Location Charge, describes that process where the Company determines whether the trouble reported by the Customer is due to the Company or to the Customer. A Network Interface Device (NID) is one form of a Company Service demarcation point that provides a customer with a test point where he/she can pretest service conditions before initiating a trouble report to the Company. Where a NID exists, if the Company is able to test for Dial Tone at the NID and the problem proves to be beyond the NID (within Customer premises) a charge for trouble location is applicable. In the event there is no NID and/or the Company is unable to test for dial tone, then no trouble location charge will be assessed. In those cases where the customer has bought an inside wire maintenance warranty/plan (a non-regulated service) from the Company no trouble location charge will be applicable regardless of the dial tone test results or whether a NID exists or not.

**SECTION 4 – SERVICE CHARGES AND SURCHARGES**

**5. SERVICE CHARGES AND SURCHARGES**

**5.1 General**

Carrier Presubscription is a procedure whereby a Customer designates to the Company the carrier that the Customer wishes to be the carrier of choice for IntraLATA and InterLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. Presubscription does not prevent a Customer who has presubscribed to an IntraLATA or InterLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative long distance carrier on a per call basis.

**5.1.1. Presubscription Options**

Customers may select the same carrier or separate carriers for IntraLATA and InterLATA long distance. The following options for long distance Presubscription are available:

Option A: Customer selects the Company as the presubscribed carrier for IntraLATA and InterLATA toll calls subject to presubscription.

Option B: Customer may select the Company as the presubscribed carrier for IntraLATA calls subject to presubscription and some other carrier as the presubscribed carrier for interLATA toll calls subject to presubscription.

Option C: Customer may select a carrier other than the Company for IntraLATA toll calls subject to presubscription and the Company for InterLATA toll calls subject to presubscription.

Option D: Customer may select the carrier other than the Company for both IntraLATA and InterLATA toll calls subject to presubscription

Option E: Customer may select two different carriers, neither being the Company for IntraLATA and InterLATA toll calls. One carrier to be the Customers' primary intraLATA interexchange carrier. The other carrier to be the Customer's primary InterLATA interexchange carrier.

Option F: Customer may select a carrier other than the Company for no presubscribed carrier for IntraLATA toll calls subject to presubscription which will require the Customer to dial a carrier access code to route all IntraLATA toll calls to the carrier of choice for each call.

**5.1.2. Rules and Regulations**

**5.1.3. Customers of record will retain their primary interexchange carrier(s) until they request that their dialing arrangements be changed. Customers of record or new**

Customers may select either Options A, B, C, D, E or F for intraLATA Presubscription.

Customers may change their selected Option and/or presubscribed toll carrier at any time subject to charges specified in 4.1.5 below.

**5.1.4. Presubscription Procedures**

A new Customer will be asked to select intraLATA and interLATA toll carriers at the time the Customer places an order to establish local exchange service with the Company. The Company will process the Customer's order for service. All new Customers' initial requests for intraLATA toll service presubscription shall be provided free of charge.

If a new Customer is unable to make selection at the time the new Customer places an order to establish local exchange service, the Company will read a random listing of all available intraLATA and interLATA carriers to aid the Customer in selection. If selection is still not possible, the Company will inform the Customer that he/she will be given 90 calendar days in which to inform the Company of his/her choice for primary toll carrier(s) free of charge. Until the Customer informs the Company of his/her choice of primary toll carrier, the Customer will not have access to long distance services on a presubscribed basis, but rather will be required to dial a carrier access code to route all toll calls to the carrier(s) of choice. Customers who inform the Company of a choice for toll carrier presubscription within the 90 day period will not be assessed a service charge for the initial Customer request.

9. SPECIAL SERVICES AND PROGRAMS, CONT'D.

9.2 Restriction Services

9.2.1. Toll Restriction

9.2.1.A. Description

Toll blocking allows end users to block direct-dialed long distance calls from their telephones. Full toll blocking blocks all calls beginning with a 1, 10XXX, or 011 numbers. Telephone lines with toll blocking can still receive toll calls and can be used to call toll-free numbers, operator-assisted collect or third party calls, and calling card calls.

9.2.1.B. Terms and Conditions

1. This service is offered to individual line residence, individual line business and dial switch type customers.
2. Provision of Toll Restriction does not alleviate the customer's responsibility for completed toll calls.
3. Toll Restriction will be provided at no charge customers upon request.

9.2.2. Bill Screening Blocking

9.2.2.A. Description

Bill screening blocking is a data base-driven service that allows end users to block collect calls or third party billed calls. To provide the service, local telephone companies sell customer data bases containing their customers' requests to block incoming collect or third party calls. Carriers who buy the data bases are able to respect customer preferences and avoid disputed bills for unsolicited calls. Because LECs charge carriers for each query to the data base, some carriers prefer not to subscribe to the data base service. For this reason, LECs cannot guarantee that their customers' preferences will always be heeded.

9.2.2.B. Terms and Conditions

1. Blocking of information will be provided at no charge to residential and business customers on all local service lines and will be provided on any line where it is technically possible.
