## TARIFF FORMAT

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1
- 2.1.1
- 2.1.1.A
- 2.1.1.A.1
- 2.1.1.A.1.(a)
- 2.1.1.A.1.(a).I
- 2.1.1.A.1.(a).I.(i)
- 2.1.1.A.1.(a).I.(i).(1)

D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on Commission file.

SECTION 3 - DESCRIPTION OF SERVICE

3.1 Handset Activation

If a customer's Lifeline activation is accepted, the customer will receive either a SIM card for use in the customer's existing device, or a handset, complete with charger, delivered to the home address noted in their application. They will also receive a welcome kit with the Company's terms and conditions of service and a "Getting Started" guide. The customer will be directed to contact customer service in order to elect the rate plan option of their choice.

The wireless telecommunications networks used to transmit calls for the Lifeline service are owned and operated by the Company's Underlying Carrier(s), not the Company.

TruConnect handsets are programmed for use on the Company's networks; even if unlocked, handsets may not be compatible with other wireless networks.

Services are provided at the Company's discretion. Some functions and features referenced in the Manufacturer's manual provided with the handset may not be available on all Company handsets.

3.2 Airtime Usage

Airtime minutes will be deducted for all time during which a TruConnect handset is connected to, or using, the wireless system. Use of a wireless system typically begins when the user presses the "send," "call" or other key to initiate or answer a call and does not end until the user presses the "end" key or the call is otherwise terminated.

Airtime minutes are deducted for all incoming and outgoing calls, including incoming call waiting calls, calls to toll free numbers, 411, and to access voice mail.

Airtime minutes are not deducted for calls to 911 or for calls to TruConnect Customer Care. TruConnect phones can reach 911 emergency services regardless of whether there are minutes remaining on the customer account.

For outbound calls, the user may be charged airtime for incomplete and/or busy-no answer calls. Airtime minutes will be deducted for use of other services such as text messaging and accessing the web and downloading content to your TruConnect phone depending on the rate plan option chosen. No credit or refund is given for dropped calls.

Calls are billed in one-minute increments, with a minimum time per call of one minute. Call times are rounded up to the nearest whole minute. Calls are limited to two hours: if a user is on a call for longer than two hours, the call will automatically terminate.

A customer's handset does not have to be "on" to receive its free monthly allotment of minutes.

A customer may check the balance of their account at any time free of charge at [www.truconnect.com](http://www.truconnect.com) or from their mobile phone.

### 3.3 Additional Airtime

A customer can add airtime using their mobile phone interface or online at [www.truconnect.com](http://www.truconnect.com), by calling customer service, or by purchasing airtime cards at an authorized distributor.

Airtime is available at the rates set forth in section 5.3 of this tariff.

**4.5 Verification**

- (A) The Customer is responsible for notifying the Company if they no longer meet the applicable eligibility standards within 30 days of becoming ineligible.
- (B) The Company reserves the right to periodically audit its records, working in conjunction with the appropriate state agencies, for the purpose of determining continuing eligibility. Information obtained during such audit will be treated as confidential information to the extent required under State and Federal laws. The use or disclosure of information concerning enrollees will be limited to purposes directly connected with the administration of the Lifeline plan.
- (C) Customers are required to recertify Lifeline eligibility every twelve (12) months. When a Customer receives an annual recertification notice requesting confirmation of eligibility status, the Customer must certify eligibility within 60 days.
- (D) If the Company has a reasonable basis to believe that a customer is ineligible, the Company will notify the customer of impending termination of Lifeline service. If the customer cannot provide eligibility documentation within 30 calendar days of the date of the notice, the customer will be de-enrolled within five (5) business days after expiration of the customer's time to respond.
- (E) Upon notification by the Administrator that a subscriber's household is receiving duplicative support and therefore the subscriber should be de-enrolled, the Company must de-enroll the subscriber within five (5) business days.

- (F) The Company utilizes a non-usage policy in accordance with 47 C.F.R. §54.407:

In the event that a Lifeline customer goes 30 days without any usage, independent of the service end date, the Company will promptly notify the customer that they are no longer eligible for Lifeline service subject to a 15-day grace period. During the grace period, the customer's account will remain active, but the Company will engage in outreach efforts to determine whether the customer desires to remain on the Company's Lifeline service. Customers may establish "usage" as defined in §54.407(c)(2):

- (i) Completion of an outbound call or usage of data;
- (ii) Purchase of minutes or data from the Company in addition to the subscriber's service plan;
- (iii) Answering an incoming call from a party other than the Company or its agents or representatives;
- (iv) Responding to direct contact from the Company and confirming that he or she wants to continue receiving Lifeline service; or
- (v) Sending a text message.

If the customer's account does not show usage during the grace period, TruConnect will promptly deactivate Lifeline services in accordance with 47 C.F.R. §54.405(e)(3).
