TARIFF FORMAT

- A. **Page Numbering** - Sheet numbers appear in the upper right corner of the Sheet. Sheets are numbered sequentially. However, occasionally, when a new Sheet is added between Sheets already in effect, a decimal is added. For example, a new Sheet added between Sheets 14 and 15 would be 14.1.

- B. **Numbers** - Revision numbers also appear in the upper right corner of each Sheet. These numbers are used to determine the most current Sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd Revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in its Tariff approval process, the most current Sheet number on file with the Commission is not always the Sheet in effect. Consult the Check Sheet for the Sheet currently in effect.

- C. **Paragraph Numbering Sequence** – There are five levels of paragraph coding. Each level of code is subservient to its next higher level:
 - 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.

- D. **Check Sheets** - When a Tariff filing is made with the Commission, an updated Check Sheet accompanies the Tariff filing. The Check Sheet lists the Sheets contained in the Tariff with a cross-reference to the current revision number. When new Sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this Sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some Sheets). The Tariff Authorized User should refer to the latest Check Sheet to find if a particular Sheet is the most current on file with the Commission.

- J. Non-Listed Service: Allows a customer to refuse Directory Listing Service.
- K. No Solicitation: Allows a customer to deter sales and telemarketing calls received by the customer. This is accomplished via a recorded message which informs the caller that the customer does not accept telephone solicitation, and ask solicitors to hang up and to place the called part on the solicitors "do-no-call" list. No Solicitation automatically screens calls between the hours of 8:00 A.M. until 9:00 P.M. daily. A caller may press one, or stay on the line to complete the call connection.
- L. Remote Call Forward: This feature allows a user at a "remote" location to activate/deactivate the call forwarding feature. The user gains remote access to the call forwarding feature from a touch tone phone at a remote location. The RACF feature uses an announcement system to provide interactive voice message prompting, which allows customer to verify the forwarded-to directory number. Changes are accomplished by remotely calling an access number, entering the appropriate line and PIN information when prompted, and making the desired changes.
- M. Selective Call Forwarding: Allows a customer to use Call Forwarding for selected numbers.
- N. Speed Calling: Speed Calling permits placing calls to 8 to 30 telephone numbers dialing an abbreviated code.

- P. Three Way Calling: Permits the End-User to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The End-User initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming calls.

Such calls are directed to the designated carrier, without the need to use carrier access codes or additional dialing. 4.5.2. InterLATA and IntraLATA Presubscription Offerings:

- A. Option A: Subscriber may select Company as the presubscribed carrier for intraLATA and/or interLATA toll calls subject to presubscription;
- B. Option B: Subscriber may select an alternate interLATA and intraLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription;
- C. Option C: Subscriber may select a carrier other than Company for the subscriber's interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription; or
- D. Option D: Subscriber may select no presubscribed carrier for intraLATA toll calls subject to presubscription which will require the subscriber to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

4.5.3. Rules and Regulations

- A. Subscribers will retain their current dialing arrangements until they request that their dialing arrangements be changed.
- B. Subscribers may select either Options A, B, C or D, above, for intraLATA and/or interLATA presubscription.
