TARIFF FORMAT

- A. Page Numbering - page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the Tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between page 14 and 15 would be 14.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the A.C.C. For example, the 4th revised page 14 cancels the 3rd revised page 14. Consult the check page for the page currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1
  - 2.1.1
  - 2.1.1(A)
  - 2.1.1(A).1
  - 2.1.1(A).1.(a).
  - 2.1.1(A).1.(a).I
  - 2.1.1(A).1.(a).I..
  - 2.1.1(A).1.(a).I..(1).
- D. Check Pages - When a tariff filing is made with the A.C.C. an updated check page accompanies the tariff filing. The check page lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check page is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk. (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages).

1.4 Undertaking of The Carrier

- 1.4. The Carrier's services are furnished for communications originating at equal access points within the State of Arizona served by one or more of the certificated long distance carriers that carry the Carrier's long distance traffic.
- 1.4.2 The Carrier neither owns nor operates any long distance facility within the State of Arizona but rather resells services provided by other long distance carriers. The subscriber shall be responsible for all charges due for such service arrangement. The subscriber shall be billed by the Carrier, and shall be considered a subscriber of the Carrier and not of any other long distance carrier.
- 1.4.3 Request for service under this Tariff shall authorize the Carrier to conduct a credit search on the subscriber. The Carrier reserves the right to refuse service on the basis of credit history, and to refuse further service due to the late payment or non-payment by the subscriber.

Such transfer or assignment shall apply only where there is no interruption of the use of service. Transferees or assigns shall be subject to the terms and conditions of this Tariff.
- 1.5.4 The Carrier neither owns nor operates any long distance facilities, but rather resells services provided by other long distance carriers. Service is offered subject to the availability of the underlying carriers' facilities and the provisions of this Tariff.
- 1.5.5 The Company reserves the right to block traffic to or from certain countries, cities, or exchanges, or to disallow the use of certain Customer authorization codes, when such action is necessary to prevent the unlawful use of its service. Service will be restored as soon as it can be provided without undue risk, and, upon request by the affected Customer, a new authorization code will be assigned. Company may control fraud by refusing to accept calling card, collect calling and/or third number calls that are determined to be invalid by the Company or by the Underlying Carrier.
- 1.5.6 The Company will not be liable for any consequential, incidental or indirect damages for any cause of action for negligence, whether in contract or tort. Consequential, incidental, and indirect damages include, but are not limited to, lost profits, lost revenues, and loss of business opportunity, whether or not the other party was aware or should have been aware of the possibility of these damages.

SECTION 1 - GENERAL, (CONT'D.)

1.6 Liabilities of the Carrier

- 1.6.1 The liability of the Carrier for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in the transmission occurring in the course of furnishing service, channels or other facilities and not caused by the negligence of the subscriber, commences on agreement to provide service and in no event exceeds an amount equivalent to the charge(s) the Carrier would assess to the subscriber for the period of service during which such mistakes, omissions, interruptions, delays or errors or defects in transmission occur. For the purpose of computing such amount, a month is considered to have 30 days.
- 1.6.2 When the facilities of other carriers are used in establishing connections to points not reached by the Carrier's facilities, the Carrier is not liable for any act or omission of the other carrier or carriers. The subscriber will indemnify and save harmless the Carrier from any third party claims for such damages referred to in Rule No. 1.6.1 above.
- 1.6.3 The Carrier will make no refund on overpayments by a subscriber unless the claim for such overpayment together with proper evidence is submitted within two (2) years from the date of alleged overpayment. In calculating refunds, volume discounts will be adjusted based on total usage after all credits or adjustments have been applied.
- 1.6.4 The Carrier shall be indemnified and held harmless by the subscriber against claims for libel, slander, or infringement of copyright arising out of the material, data, information or other content transmitted through the Carrier's services, and against all other claims arising out of any act or omission of the subscriber in connection with any service provided by the Carrier.
- 1.6.5 The Company will make reasonable efforts to cure any material failure to provide services caused solely by defects in the Company's and/or its Underlying Carriers' hardware, software or systems. Due to the interdependence among telecommunications companies, especially the dependence of Company processes, equipment and systems, the Company is not responsible for the failure caused by circumstances beyond its control including, but not limited to, failures caused by: (1) a local exchange carrier; (2) Customer premises equipment; (3) the Customer; or (4) Underlying Carriers and vendors.
