Commissioner Tom Forese's first solar workshop highlights Arizona based companies Forese announces second workshop in November to continue education

Arizona Corporation Commissioner Tom Forese's first in a series of rooftop solar workshops kicked off this morning with presentations from three Arizona-based solar companies.

The presentations focused on different challenges in the industry, emerging technology, and the relationship between solar companies and utilities. American Solar, Solar Tops, and Elevation Solar participated in the workshop.

"This was a great start," said Forese. "It is a great learning opportunity. This kind of forum is so important in order to understand the company operations and how they interact with, and impact, customers."

Archived video of the workshop is available to view at: <http://www.azcc.gov/>.

The next workshop will be November 10th at 9:00 a.m. at the Arizona Corporation Commission, 1200 W. Washington, Phoenix, AZ.
